CAN AMERICA BE SAVED?

By

CLIFFORD P. THOMALLO

CASA Grande
ARIZ.

Do we love America? Do we like the American way of life? What is the American way of life? Is it worth saving? How important is it to us? Do we hate communism? If so, why? What is communism? Can the American way defeat the communist way? Why has communism enslaved one third of the world's peoples? Is it possible to save America? If so, how can it be done? What's it worth to us? These are questions that must be answered now, today, if we would change the trend of world power.

The first question, to most loyal Americans, is superfluous. Of course we love America! We love America like we love our mothers and fathers, our brothers and sisters. There is no question in our minds about it. We take such love for granted. We say, in effect, that it is normal and natural to love our families. We say it is normal and natural to love America because, in effect, it represents all we hold near and dear to our hearts. We take it for granted.

We like the American way of life too, it is supposed, because we have known nothing else. We are not too sure exactly what the American way of life truly is. To some of us, perhaps, it means only that we have comfortable homes, food, warm clothing, the privilege to change jobs--or work at no job at all. To others, perhaps, it means the right to attend the school of our desires, the right to worship God as we wish--if we believe in God. Yet others may thing only of America as a place where two

CORRESPONDENCE

or more people may gather together for the purpose of petition, asking that governmental orders be initiated or changed for the common good. All these things!

Is this thing we enjoy--freedom to speak and act--valuable to us? Were we to lose this freedom, would we feel the loss keenly? Would we grieve as we would upon the loss of a mother or father, those who had given us birth and nursed us to maturity? If our grief could be measured in these terms, then it is likely that America is worth saving from communism.

It is quite normal and natural that we hate those things that tend to encroach upon our personal freedom and destroy us in both mind and body. If this is true with us, it is natural that we hate communism since it steals man's freedom, controls his thoughts and directs his acts. Communism considers man like the weeds of the field, like the animals that crawl and infect the woodlands. Communism denies man a soul, an individuality different from his fellowman. Communism says that man is no different from the cow that gives us milk--and that when the cow has served its use in feeding us and has no more milk to give, then it must be destroyed and used as beef or as a fertilizer in the soil. Communism says that unless we are communist and can accept their slavery and serve the cause of slavery, then we too must be destroyed. Do we hate communism?

Can we defeat communism with Americanism? If we would, we can. If we love America, we must believe in God for the very foundation stone of America is the acknowledgement of God. To love America is to love God since America comes from God--even as a child from its mother's womb. To defend America

against an enemy that would destroy the foundation stone that makes America strong, is to defend God against the enemy. We must be on God's side--the side of Goodness which opposes evil.

How do we know there is a God? Through the principle of causality: Everything comes from somewhere. It is repugnant to the reason within us that something can come from nowhere--as communism says--and go someplace. Marx, in founding his school of thought, discarded the idea of God as we might discard the idea of a generator that gives us electricity to light our house. To say that light within the bulb exists without the mechanism that generates it, is to say what Marx presumes--that all creation came from nowhere and that the soul of man--like the electric bulb inside our home--goes back to nowhere when the switch of life is turned and death ensues.

If God there be, whence comes the strength of the evil one? Why does communism threaten to enslave the world? Is evil more powerful than Good? We Americans who believe in God will recall the war of the angels good and bad as told in scriptures of the past. This war has never ceased to be. Battles have been won by the good and bad--but the war wages on. The end will come. What is the battle array? In whose ranks are we to be? Why the great numbers on evil's side?

We say we love America. How much do we love it? Will we sacrifice for it? What is the price we're prepared to pay? Are we prepared to pay the price the communist pays to be enslaved? What price will we pay to save the womb that gave us birth? The communist gives up his friends, his home, the money for which he sweats, his will to live, his blood, his life, all for evil's sake. Can we expect to gain the jewel of freedom which gives

us love, and comforts, independence, God Himself, the right to save our life, for a price less than that paid by the communist for slavery's sake?

Would we know Christ today had His apostles kept their treasure of love within their breasts without sharing it with humanity? They knew God and they left their homes, and families, and wealth behind to follow after Jesus Who preached from the mountainside. Of the eleven that remained after Judas' fall, all but one gave his life for Goodness' sake. Can we do less and expect to win the war?

We in America spend forty billions of dollars each year to defend America against the enemy guns and ships and rockets and atom bombs which are stock-piled everywhere. We spend less than a million dollars to defend our America against the weapon that is defeating us each day--the psychological warfare that steals men's minds because they are not trained--inoculated--with knowledge of the evil one. If we insisted that our President and Congress set up an army to invade our schools, our media of communications, our homes, the countries of the world, not with guns and bombs that will destroy humanity everywhere, but with truth about the weapon that is defeating us--the weapon of deceitful propaganda--America will not only win major battles within days from now, it will win the war that will set men free to live and love and serve his fellowman in the light that fills the bulb, the light generated at the plant which is God.

The nuclear bomb, the rocket, artillery, cannot win a war that's fought to win men's minds. If the war of minds declared by Marx has found us unprepared, let our President and Congress see to it that we prepare at once. Let every American--every

man, woman and child--be inoculated with truth, knowledge of the evil one, that everyone might cope with the enemy on common ground, the battlefield of wits--truth against falsehood. Let us contact our President and Congress at once. Let tell them how to win the war that challenges to engulf us today. Let us have a freedom school that will reach every American at once.

Dear Mr. Thomallo:

I have received your letter of July 23. Your interest in our report concerning the FBI's accomplishments is appreciated, and I do want you to know that your support and approval of our endeavors are, as always, a source of great encouragement.

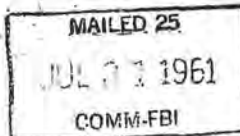

Communism is the greatest single threat facing our American way of life, and your desire to devote your time and effort in combating this menace is most reassuring. I certainly wish it were possible for me to be of service in connection with your request. Unfortunately, budgetary limitations and the heavy demand for this literature preclude our furnishing it in quantities. Consequently, it will not be possible for me to be of assistance in this regard.

Sincerely yours,
J. Edgar Hoover

Dear Mr. Hoover:

EXP. PROC

JUL 27 1961

First, I should like to express my gratitude to you for the tremendous report handed to Attorney General Robert F. Kennedy on your accomplishments for the year of Nineteen Sixty-One so far. Surely no American could expect more from a good and faithful servant of the people. Surely Mr. Kennedy has the best information available at his fingertips ready for use. Indeed, we out here feel that so long as we have you batting for us in Washington, furnishing up-to-date information on the communist conspiracy, we can win the battle of freedom being waged. God love you, Mr. Hoover!

Now that I've returned to Tucson--after spending a year and three months in Casa Grande, Arizona where I started the AMERICANISM FOR AMERICA program with the aid of Senator Barry Goldwater and Governor Fannin--I have been asked to start an AMERICANISM FOR AMERICA program here in connection with the Military Affairs Committee of the Tucson Chamber of Commerce, having been requested to do so by General [redacted]. I am told that this city can use a lot of Americanism.

Though I have a job and a family to look after, I have volunteered to go anywhere after working hours and on weekends to help tell about the conspiracy as well as encourage Americanism movements and study groups. Naturally, then, I need all the literature I can get--authentic information--to disseminate among the unknowing. I hope to reach all the schools--especially the university--with correct information so that we might erase wrong impressions being left with the young. I'll appreciate any number of copies of your own talks as well as copies of leaflets--TARGET YOUTH--anything that you can send me in quantity. Mr. Walter and the Honorable Senator Eastland are furnishing me with booklets and leaflets too. ALLAN-BRADLEY has shipped about forty thousands of their leaflet by [redacted]. I tell you this so you might know to what extent I am working to reach people--churches, civic clubs, schools, youth groups, the people on the street. I have my own copy of OPERATION ABOLITION which I show at every opportunity to anyone who will sit long enough to see it.

Dear Mr. Hoover:

Last October Senator Barry Goldwater, Governor Paul Fannin, and I, initiated the AMERICANISM FOR AMERICA movement or program while I was manager of the Casa Grande Chamber of Commerce in Casa Grande, Arizona--which your files will disclose. Now, because of family circumstance and attachment here in Tucson, Arizona, I am back in defense work. Within a few days after my return, General [redacted] asked me to become a member of his committee with the local chamber of commerce. This request was made, in his words, because of the success we'd had with Americanism in Casa Grande.

Last spring I attended the Christian Anti-Communism Crusade school that was held in Phoenix, Arizona at which time I bought all the tapes and literature available on the communist conspiracy. This information I am now making available to citizens of Tucson through weekly group meetings in my home. We have had six of these meetings so far and I hope to continue indefinitely--showing films like OPERATION ABOLITION, MY LATVIA, playing tapes by men like [redacted] and others. It is our hope--and it seems to be working out all right till now--to use my home as an information center where tapes and literature, from the Senate Investigating Committee, the House Committee on Un-American Activities, and your own Federal Bureau of Investigation. The prime purpose, of course, is to assist in alerting the American people to the conspiracy. I have invited the local FBI men as well as the county sheriff and city councilmen to attend these meetings along with executives of business and manufacture. However, though this mother group has already planted the seed of other groups--and we hope they will soon run to the thousands--we feel that, perhaps you can suggest a better and quicker way. I might mention that we are trying to get thousands and millions to write their congressmen and the president. We're looking for advice and suggestions from you. We want to do the best possible job because, though the communists say we have nothing to fear, we can see what has happened to the world in the last fifteen years.

Any information you might find it possible to send us shall be deeply appreciated....God love you for the terrific job you are doing!

Dear Mr. Hoover:

Indeed it was comforting to hear you on television yesterday! Nothing would please us more than to hear your voice often — and giving directions and information to the American people so that they might prepare to assist in stopping the spread of Communism that would enslave them.

We — my wife and — hold regular weekly study meetings, using your book, "Masters of Deceit", as a text, and also buying and disseminating literature which we get through the Government Printing Office, the Investigating Committees, et cetera. We spend every penny, over and above a modest living, on this type of work. We value our freedom in God and country and feel that the loss of this freedom would cancel out any material benefits we may now possess.

Is there any other way we might assist in the fight against Communism?

We'll appreciate any information you may provide us. Rest assured it will reach thousands.

God love you!

Writer Wages War Against Communism

A Tucson technical writer yesterday likened communism to smallpox, adding in a speech at a Young Democratic Club of Greater Tucson luncheon he is conducting a "one-man campaign to do what I can to heal it."

The speaker, Clifford F. Thomallo, 56, a Bell Aerosystems Co. technical writer and former Casa Grande Chamber of Commerce president, labeled communism "an unpleasant subject ... unlimited in scope."

The author (he wrote "Strangers in My House") said he had been studying the subject for some 35 years after having witnessed actions of the International Workers of the World in 1923 in the wheat fields of North Dakota.

Thomallo, now writing on subjects in the field of electronic engineering, declared the IWW did everything they could to destroy the property owners' investments. He said itinerant workers would jam machinery, for example, to help wreck farm economy.

Today he said he spends his own funds from his own pocket buying government literature "so that there will be no misinterpretation by the people, the press and radio ... and so that I will not be misunderstood."

Fight Reds, Democrat Club Told

Clifford F. Thomallo, a Bell Aerosystems Co. technical writer, told the Young Democrats Club yesterday not to adopt the impression "that the only people who fight communism are Republicans."

Thomallo, a Tucson resident, said that he and his wife spend all their income above living expenses on "Americanism." They pass out anti-communism literature and hold discussion groups on Americanism in their home.

"I consider communism to be a smallpox and I feel obligated to heal."

A Democrat, Thomallo said that he is not an originating authority on Communism. "But I read the authorities," he said, "both Communists and anti-Communists."

Thomallo urged the Young Democrats to interest themselves in the anticommunism movement.

In a question and answer period, he said that he is not a member of the John Birch Society — "but they are against communism." He said that he did not have evidence that Communists have entered into the state government of Arizona or the city government of Tucson.

After meeting Louis Budenz and reading his syndicated column for several years, it occurred to me that it might be expedient for our anti-communism study group to subscribe to the Daily Worker for purposes of information.

However, we do not want a wrong impression created in your office.

Is it permissible to subscribe to this publication without ill connotation?

I have reproduced your last speech, as given on your telecast, and have gotten the copies where they will confirm the hazard of the conspiracy. Dear Mr. Thomallo:

It was indeed kind of you to comment as you did in your letter of May 20th, and I want to take this opportunity to thank you for your generous remarks.

While the statement you quoted and requested permission to reprint is accurate, it was made many years ago and I would prefer that your wife and you not use it in the manner you suggested.

Sincerely yours,

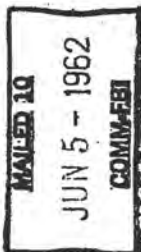

J. Edgar Hoover

Mr. J. Edgar Hoover, Director

Dear Mr. Hoover:

Congratulations again on your thirty-eighth year of truly American patriotic service to God and country! As I have said so many times: You are indeed the champion of us all. If you could but live an eternity here on earth today's concerned Americans could take great comfort....for you are one who knows the menace at the gate. God love you!

Thank you for the copy of your article that appeared in the "Nation's Business". I have made copies for my boss, the plant manager of Bell Aerosystems Company here in Tucson, who has approved of my many talks before clubs and schools and churches on the subject of communism--even though these engagements do sometimes consume company time. I mention this because my employer is anxious to do all possible to inform employees and the public on the conspiracy that confronts us....and there are so many these days who will not allow their employees to participate in anything anti-communistic.

Someone just handed me several different pieces of literature and cards and one of them contains a quotation: "Anyone who opposes the American Communist is at once branded as a 'disrupter', a 'Fascist', a 'Red baiter', or a 'Hitlerite', and becomes the object of a systematic campaign of character assassination. This is easily understood because the basic tactics of the Communist Party are deceit and trickery." This is signed -J. Edgar Hoover. This confirms again what Hunter has so often mentioned. My wife and I should like to use this quotation--with your permission--to use on the back of our calling cards. May we?

Again, thank you for your wonderful service to America.

Friendly yours

PURPOSE:

To recommend handling of a letter dated 5-26-62 received from the captioned individual requesting permission to use a quotation from a statement by the Director on the back of Mr. Thomallo's and his wife's calling cards.

BACKGROUND:

Thomallo is on the Special Correspondents' List. We have sent him Bureau reprint material in the past; however, in July, 1961, we learned he had also been using large quantities of material of [redacted] and we thereafter declined to furnish him literature in large quantities. (94-56059; 94-54268-8)

b6

b7C

Although our files indicate Thomallo is an ardent anti-communist and the statement he quoted is contained on page two of the Director's statement before the Committee on Un-American Activities, House of Representatives, 3-26-47 (copy attached), it is not felt correspondent should be given permission to reprint this quotation on his calling card in view of his use of material furnished by [redacted] and other individuals connected with the Christian Anti-Communism Crusade.

b6

b7C

RECOMMENDATION:

That the attached letter dated 6-4-62 be forwarded to correspondent, advising him that the Director would prefer he not use the quoted statement in the manner he suggested.

Dear [Redacted]

Do you enjoy being free? What is freedom worth to you?
What will you give to preserve it?

Slavery threatens all of us. Now. Protect yourself against communism. Write Hon. James O. Eastland, Senate Building, Hon. Francis E. Walter, House Building, and J. Edgar Hoover, Federal Bureau of Investigation, Washington, D. C., and ask them to advise you on how to keep America free.

You owe it to yourself, your children, your country--if you would remain free.

Will you write five letters a week to five other Americans and give them this message? God love you!

Friendly yours

Dear Mr. Thomallo:

I received your letter of January 1st and want you to know how much I appreciate your very kind comments and the sentiments you expressed.

It is vital that our citizens learn the true nature of the communist conspiracy in order that they will be able to intelligently resist its eroding influence. But it is not enough to merely be against communism. To fight this menace, loyal Americans must exhibit in positive ways the superiority of our form of government and system of justice over any foreign ideology.

I regret I am unable to offer specific suggestions for your program since I feel that you and your associates in your area are in a far better position to understand the needs of the local situation.

Sincerely yours,

J. Edgar Hoover

Mr. J. Edgar Hoover, Director

Dear Mr. Hoover:

I want my first letter of Nineteen Hundred Sixty-Three to be to you.

Each day I hope that you will ^{be} permitted--even asked by the president--to lead the people of the free world through the crisis with which we are faced. YOU are the one person in whom we all have faith and trust.

We read about the monies spent on arms that we may never use. Yet we see an absence of expenditure on that which is endangering the world's freedom. Since we know--you above all others--that the communist conspiracy grows each day, why is it that our radio stations, our television stations, our theatres, newspapers and magazines, are not filled with the warnings that issue from your words given at various times before patriots such as the American Legion?

If the enemy is as bad as we say it is--and I'm sure it is--why is it we hesitate to get the true message to every man, woman and child of the free world?

EX-120 REC-42 94-56059-7

It is not likely that you will recall me nor the AMERICANISM PROGRAM I started in Casa Grande, Arizona with the assistance of our Governor Paul Fannin, Senator Barry Goldwater, and others. This program, greatly because of your inspiration and information, has continued to where we have literally reached many states and countries. But our work is so little as compared with the need. We'd like to see a U.S. Army of counter propagandists to combat the infectious propaganda that finds its way into our communications media. Any suggestions that we, the people, might carry out?

I want to thank you, Mr. Hoover, for all the courage and work you are doing on behalf of freedom. God love you for it! Without You, we'd really be in a pickle.

Dear Mr. Hoover:

It is a long time since Senator Barry Goldwater and Governor Paul Fannin accepted my request for their help to "kick off" an AMERICANISM FOR AMERICA program in Casa Grande, Arizona while I managed the chamber of commerce in that area. It is a long time since I last wrote you from Tucson, Arizona where I was holding regular weekly study group meetings in my home, having from twelve to one hundred and fifty at each meeting--showing films, playing expert tapes, giving out authentic literature on the communist conspiracy--including thousands of talks and articles--copies--that you had issued from your department.

In the last four years of my most active anti-communist programs, I have been given the "treatment" in different ways--loss of jobs, loss of many friends who could not see any danger confronting America today, the cooling of my relations with many long-time associates. Your Tucson office has the story of my "treatment" and activities.

I have been obliged to leave the Arizona area, in which I had made my home for over thirty years, and seek employment.... A wholesome side of the picture brought me to Racine. The president of a manufacturer heard me give a lecture in Arizona last year. Unbeknown to me, he had my background checked, then offered me a job. He liked my Americanism and courage to speak out--which is not done entirely out of philanthropy. I am thinking of conscience, my children, and the heritage entrusted to me by my parents.

My reason for writing at this time: I should like to know the name of your nearest representative to whom I might go for your literature and with whom I might leave my name.... I should also like to receive your bulletins and reports at my present new address:

me....I should also like to mention that I am going to subscribe to several communist newspapers, including the DAILY WORKER so that, as Louis Budenz used to say, I may be a few weeks ahead in what the program is destined to be in the sequence of "historical inevitability".

I'm most happy to learn that President Johnson has given the "nod" to your staying on the job. As far as I'm concerned, you're the most important rock in our foundation of freedom. God love you!

Dear Mr. Hoover:

God love you! Congratulations on your fortieth anniversary as head of the Federal Bureau of Investigation! Thanks too, for agreeing to stay on as the head of the Department. As one American who enjoys the freedom you have given so much to preserve for me and my children, I want to express my deeply-felt gratitude. Though I do not know that my prayers ever get off the ground, I shall surely continue to say many for you. America--and God--will thank you one day.

Since Senator Barry Goldwater and Governor Paul Fannin accepted my request to help with an AMERICANISM FOR AMERICA "kick-off" in Casa Grande, Arizona, I have continued with every effort to adhere to your direction given in your many speeches and articles: I have spoken before hundreds of groups of all kinds, giving out your literature, showing OPERATION ABOLITION, playing tapes of the experts....and even though some of these efforts have cost me positions that let me earn a living for my wife and adopted children, I feel the price is cheap where freedom is concerned. I shall continue to sing your praises and spread the word that Americans must come awake.

Again: Congratulations!...and thanks.

Dear Mr. Hoover:

Thank you for your personal letter of the fourteenth. I appreciate this.

As your files will reveal, I have been very active in anti-communism work--speeches, tapes, movies, distribution of thousands of pieces of literature from the investigative committees of our government as well as thousands of copies of your articles and speeches--which work has cost me several important positions that meant my livelihood and that of my wife and our three adopted children. But, as you have said or implied many times, freedom to live in the love of God and country is worth any price. I too would rather be dead than red.

My purpose in writing you today: I have just received a "go-head" from management to distribute your speeches and articles in our three factories in Wisconsin and Illinois. I wish to pay for these leaflets, booklets, et cetera out of my own salary. I feel the distribution of this information will do much to waken many sleepy Americans in this area. I should like copies--in quantity--of the following:

THE FAITH TO BE FREE, RED GOALS AND CHRISTIAN IDEALS, LET'S FIGHT COMMUNISM SANELY!, WHY REDS MAKE FRIENDS WITH BUSINESSMEN, YOUTH OF TODAY BECOME CITIZEN LEADERS OF TOMORROW, DEADLY DUEL, THE COURAGE OF FREE MEN, GOD AND COUNTRY OR COMMUNISM?, DO YOU REALLY UNDERSTAND COMMUNISM?, WHAT YOUNG PEOPLE SHOULD KNOW ABOUT COMMUNISM, COMMUNISM PARTY, U.S.A., COMMUNIST ILLUSION AND DEMOCRATIC REALITY, and any others that you may have available for distribution.

Again, God love you for your courage and great work 1964

Dear Mr. Hoover:

My wife and I were listening to the news broadcast yesterday when the announcement was made of the controversy between you and Martin Luther King--and also your reply to his accusations. God love you for your statement!

We know--as many Americans know--of the circumstances in which you find yourself. It has taken an unusually strong personality to endure through the years, seeing the adverse influences at work to destroy our free way of life--and not being free and in a position to actually warn America of the late hour. We think we understand.

As I have so often written in the past--since Senator Barry Goldwater helped me "kick-off" and perpetuate an AMERICANISM program that took its birth in Casa Grande, Arizona on October 4, 1960--America owes you a lot. If all true Americans could know the truth of what confronts us as a nation, I'm sure that Communism would soon lose its "fire" and appeal.

My wife and I--and our three adopted children, one an Indian, a second a Mexican, the third a German-Greek--want you to know that we appreciate all you have done and all you are doing to save America and her way of life.

We do remember you often in our prayers. God love you!

EXP. PROC.

Dear Mr. Hoover:

40 DEC 7 1964 31

As your files will reveal, I have been active in disseminating information concerning the Communist conspiracy--quite intensely--ever since Senator Barry Goldwater and Governor Paul Fannin of Arizona assisted me in an Americanism program "kick-off" back in Nineteen Sixty. I had studied Communism as a philosophy of materialism ever since I studied for the Catholic priesthood as a young man--and until I became ill with tuberculosis from overwork and which sent me to the desert country on a freight train, penniless, in the early Thirties. My father had been killed in an accident and I was forced to give up my studies because of obligations and responsibilities....In those days I met up with many Communists who preached the doctrine of "heaven on earth" with which I had become familiar at the seminary. Since that time, I suppose, there has hardly been a day during which I was not conscious of the conspiracy and its workings. I saw suggestions of it in the press, on the radio, and, later, on television.

I recovered my health, became gainfully and responsibly employed, married, my wife and I adopting three children--one a Greek-German, one a Choctaw-Cherokee Indian, a third of Indian-Mexican extraction. As has been the case with many who were and are informed, we saw our American heritage in jeopardy. We felt an obligation to do more toward informing the American people--as you have suggested in many of your talks about the country. We had no conscience for having to apologizing to our children for not having done all within our power, preserve American liberty and freedom. After Goldwater and Fannin helped me with a definite program in Casa Grande on October 4, 1960, my wife and I continued to disseminate information on an ever-increasing scale, always at our own expense, never accepting any financial assistance with what we were doing--always asking and encouraging others to do what we were doing. Naturally, I was accused of being a Communist--by those who were suspect--almost immediately after Goldwater and Fannin participated with me in a program. I reported this fact to your Phoenix--one of them--representative. I got the impression from him that he was very much aware of the situation.

home each week--fifty-eight Thursdays without a miss. One of our programs was televised. I was invited to give hundreds of speeches--which I gave; I showed the film "Operation Abolition" over a hundred times throughout the Southwest--always at my own expense. During question periods after my lectures before service clubs, church groups, schools and colleges, civic groups, businessmen, almost invariably I was asked about The John Birch Society. I defended them with the information I had on hand. I finally made a personal investigation of the organization and finally joined the Home Chapter. I have been supporting many other organizations, the Christian Anti-Communism Crusade, the Christian Crusade, Dan Smoot, the Cardinal Mindszenty Foundation; I have been subscribing to periodicals--many of them--like Human Events, The Wanderer, The Freedom Press, the Cardinal Mindszenty Red Line, Victory. I write letters to the newspapers, continue to speak whenever an invitation is extended me--and sometimes these invitations are many. I was the only one on the Tucson Chamber of Commerce Speaker's Roster--out of a long list--noted as being available to speak on Communism as well as Human Relations and Industrial Employee Counseling. It so happened that since I was the only one on the roster listed to speak on the subject of Communism--and I spoke often, giving out thousands of copies of your speeches, plus literature from the House Committee on Un-American Activities and the Senate Sub-Committee--I was soon known and recognized by some of the opposition who didn't like what I was doing. Though I would find it difficult to prove, I soon became a persona non grata with my employers because of my disclosures. Where I had been acknowledged and praised--even to the extent of national awards--for my work on human relations and industrial employee counseling, I was ^{now} being condemned for my anti-Communism work. I soon found it was not possible for me to keep employment and continue to talk on anti-Communism. I continued to talk. My conscience and inherited patriotism wouldn't let me do otherwise. I took great stock during those days in your words on what one can expect when he begins to fight the American Communist....Down to the bottom of the barrel, the usual threats, no job, I received--out of the blue--a letter from a Racine manufacturer, asking if I'd consider coming to Wisconsin. At my age, it was like an answer to the thousands of prayers being offered on my behalf by many friends and patriots--and I'm sure it was such an answer....though, I agree, it's a little old-fashioned to believe in God and the efficacy of prayer....I'm here, working as a counselor and director of training--and still continuing my anti-Communism activities, supporting and working with all the organizations mentioned above.

Now: My whole point in taking up so much of your time is to tell you that since the menace has gotten into the churches and all avenues of life, with suspicions being thrown in all directions--and since I haven't seen any support to anti-Communist groups being misdirected, I can only assume that my support remains purely patriotic and American. I feel that it is important that I take every precaution against hurting the cause of freedom....but every day the work gets more difficult. Life Line, Christian Crusade--two of the many organizations to which I have contributed funds and effort--are now, apparently,

under fire....Next Monday--since there are ^{very} few members of the John Birch Society in this area--I am doing a presentation for The Society, feeling that a few chapters might do a great deal to alert this community which, according to the local chief of police, used to be called Little Moscow. I want you to know this.

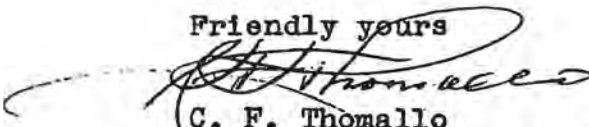

Too, your files will disclose where I wrote you one time telling you that I wanted to subscribe to THE WORKER and POLITICAL AFFAIRS so that I might keep up with the signals that issue to the theoretical as well as the practicing, hard-hitting membership of the Communist Party. Today, I am sending a check to the publishers for a three-month subscription to POLITICAL AFFAIRS and a one-year subscription to THE WORKER. I am enclosing reproduced copy of my check and my orders for these magazine.

Thank you for your note of November the thirtieth--as well as the copy of your talk given at "SWORD OF LOYOLA" dinner in Chicago. Since I am to speak at several Catholic group meetings in Milwaukee, I shall find the information most useful. Having studied for the priesthood--and still working at Catholicism--I'm very much concerned as to what is happening among some of the Catholic membership in their indifference and apathy and, sometimes, unconscious support of saecularism.

I'm glad to see that Martin Luther King, in effect, apologized to you--though I shall continue to suspect everything he says.... and I shall watch the press for signals of pending moves.

Again, God love you, Mr. Hoover, for all that you are doing to keep America safe for my children!

Friendly yours

Dear Mr. Thomallo:

I received your letter of December 18th and want to thank you for your thoughtfulness in writing as well as your kind sentiments on the occasion of the Holiday Season.

With respect to your inquiry, you may wish to refer to my book, "A Study of Communism," which contains an analysis of international communist practices and contrasts totalitarian methods with life in a free country. This book may be available at your local library.

It is my hope that you enjoyed a happy Christmas and that the coming year is filled with an abundance of good things for you.

Sincerely yours,
J. Edgar Hoover

Mr. J. Edgar Hoover, Director

Dear Mr. Hoover:

I am still "cracking ice" in trying to get into the American mind with an alerting on Communism. Last week I was interviewed on a Milwaukee television station; the week before I showed "Operation Abolition" and lectured as well before students and professors of the University of Wisconsin; in addition--as is usual--I spoke before civic and service groups.

Since I am new in this area--having moved from Tucson, Arizona--I am encouraged by an invitation yesterday from the management of the local Young Men's Christian Association to give a weekly lecture on the subject of Communism and the conspiracy. I am proud of this accomplishment because, while I lived in the Y. M. C. A. in the early part of the year--before moving my family here--I made special efforts to enlist the interest of this management group of the Christian organization, alerting them to the immediate danger that confronts America. Knowing that there are many residents in the Y.M.C.A. who will try and give me a hard time, I should like to be especially prepared. Do you have any special preference for use as a text? If so I'd like to have it--and I'll buy it immediately upon learning the name and publisher....I have a big truck load of material from the Government Printing Office as well as your own MASTERS OF DECEIPT which you were so good to send me as a gift while I lived in Casa Grande, Arizona. I also have most of Karl Marx and Lenin's works. But I'd like something lighter for the Y group.

Any help or suggestions you may offer will be most deeply appreciated.

Dear Mr. Hoover:

Thanks for your suggestion on "A STUDY OF COMMUNISM" which I was able to get from THE BOOKMAILER without delay.

This book makes a fine mate to "MASTERS OF DECEIT" which I have had for several years now.

Though I have a whole truck load of studies and documentation on the Communist conspiracy, I do think that "A Study of Communism" is the best for reference and lecture work when the tyro and uninformed is concerned.

Congratulations on a fine piece of work, Mr. Hoover. I assure you that this latest book of yours will be used daily in my after-hours work of informing the American mind. God love you!

Dear Mr. Hoover:

Just a word to thank you for the message contained in the FBI Law Enforcement Bulletin. I shall use it for quick reference when I receive the usual static from a certain faction I find in most of the public audiences to which I speak on the subject of communism.

I am sure that most of the static makers know quite well the limits of the Bureau's purview. The object in asking the question is to create the impression that the Bureau is not doing its job--as Martin Luther King would have the world think.

God love you for your fine work! Anything with which I can be of help will be considered a privilege to perform on behalf of our American heritage of Law and Order.

Dear Mr. Hoover:

I hope you do not tire of my notes of praise for the fine work you are doing for the security of our national way of life which certainly seems, at times, to be in jeopardy. God love you!

I just finished reading your "MESSAGE FROM THE DIRECTOR" in the FBI Law Enforcement Bulletin. You've laid it on the line again and I thank you for it. I refer to your bulletins often during my lectures on anti-communism to the study groups that I continue to form.

Because of the masters of deceitful propaganda, it seems that we must continue to remind and caution the American people on the processes of Communist brainwashing techniques.

I appreciate the information contained in the article by Col. Joseph L. Regan regarding the riots at Hampton Beach. The pattern of the riot-makers seemed strangely familiar. I referred again to some of Kenneth Goff's testimony and found the reason: I am attaching a copy of a bit of information that appeared in a magazine called "DIVINE LOVE" [redacted]

WHAT
IS
A
COP?

COPS ARE HUMAN (believe it or not) just like the rest of us. They come in both sexes but mostly male. They also come in various sizes. This sometimes depends on whether you are looking for one or trying to hide something. However, they are mostly big.

Cops are found everywhere — on land, on the sea, in the air, on horses, in cars, and sometimes in your hair. In spite of the fact that "you can't find one when you want one", they are usually there when it counts most. The best way to get one is to pick up the phone.

Cops deliver lectures, babies and bad news. They are required to have the wisdom of Solomon, the disposition of a lamb and muscles of steel and are often accused of having a heart to match. He's the one who rings the door bell, swallows hard and announces the passing of a loved one; then spends the rest of the day wondering why he ever took such a "crummy" job.

On TV a cop is an oaf who couldn't find a bull fiddle in a telephone booth. In real life he's expected to find a little blonde boy "about so high" in a crowd of a half million people. In fiction he gets help from private eyes, reporters and "who-dun-it" fans. In real life,

mostly all he gets from the public is "I didn't see nuttin'."

When he serves a summons he's a monster. If he lets you go, he's a doll. To little kids he's either a friend or a bogeyman, depending on how the parents feel about it. He works "around the clock", split shifts, Sundays and holidays and it always kills him when a joker says, "Hey, tomorrow is Election Day, I'm off, let's go fishing" (that's the day he works 20 hours).

A cop is like the little girl, who, when she was good, was very, very good, but when she was bad she was horrid. When a cop is good "he's getting paid for it". When he makes a mistake "he's a grafter and that goes for the rest of them too". When he shoots a stick-up man he's a hero, except when the stick-up man is "only a kid, anybody coulda seen that".

Lots of them have homes, some of them covered with ivy, but most of them covered with mortgages. If he drives a big car he's a chiseler; a little car, "who's he kidding?" His credit is good; this is very helpful, because his salary isn't. Cops raise lots of kids; most of them belong to other people.

A cop sees more misery, bloodshed, trouble and sunrises than the average

person. Like the postman, cops must also be out in all kinds of weather. His uniform changes with the climate, but his outlook on life remains about the same; mostly a blank, but hoping for a better world.

Cops like days off, vacations and coffee. They don't like auto horns, family fights and anonymous letter writers. They have unions, but they can't strike. They must be impartial, courteous and always remember the slogan "At your service". This is sometimes hard, especially when a character reminds him, "I'm a taxpayer, I pay your salary".

Cops get medals for saving lives, stopping runaway horses and shooting it out with bandits (once in a while his widow gets the medal). But sometimes the most rewarding moment comes when after some small kindness to an older person, he feels the warm hand clasp, looks into grateful eyes and hears "Thank you and God bless you, son".

THE COMMUNIST PLAN FOR TAKING OVER AMERICAN CITIES

(As revealed by Kenneth Goff, a former Communist, to Congressional Committees, and in speeches and publications.)

AT that hour, large race riots are supposed to take place in every city of any size. Leaders of these mobs are to be carefully chosen and trained in advance. The disturbances are to be of such extent as to require sending large forces of police to those areas. While the authorities are trying to quell these riots, picked bands of Reds are to seize the radio stations and telephone exchanges. With the aid of their comrades, who are employed inside, all communications systems are to be instantly crippled.

"Flying squads of Communists are to seize control of the water supply and shut it off; also the electrical power and gas. This means that no elevators or street cars are to be running. Homes would be without water, fuel or light. It would be impossible to communicate with friends or loved ones, even in another part of the city.

"Goon squads of professional murderers are to round up the people in the business districts. Men are to be held as hostages in some of the larger buildings. Women are to be turned over to the sex-crazed mobs to be ravished and raped.

"These are exactly the methods used in Russia, Spain and other places where the Communist Party has been allowed to organize and come to fruition. They expect to do the same thing in the U.S.

"Bridges, subways and street car stations are to be blown up. Downtown areas are to be isolated from the rest of the city. Sharpshooters and snipers are to be detailed in taxicabs and vehicles, which are to be taken over to wipe out the police, soldiers, uniformed persons and known vigilantes. Smoke bombs, properly located in subways, buildings and large stores are to add to the terror of the people.

"This is the day—the big day toward which every Communist is looking—and for which he is preparing. His entire training focuses at that point.

"When night comes, the city is to be in pitch darkness. Murderous bands of Reds will roam the streets, plundering shops and starting fires in old buildings. This will increase the panic and facilitate the surrender of women, children and old people, who will be held as hostages to hasten the surrender of unarmed men.

"Then, as the morning sun casts her first rays on the community, one will be able to see blood flowing in the streets. This is no idle dream. The Communist Party is working methodically and with deadly precision toward this objective. It can happen here. Unless we destroy the Red menace in America, the day is at hand when we shall suffer the same fate as our Christian brethren in Europe."

Mr. Prussion joined the Communist Party USA while a student at Wayne State University in Detroit in 1933. He eventually became disillusioned with the Party, became a reluctant Communist, and finally an F.B.I. undercover agent in the San Francisco Peninsula Area from 1947 until August 12, 1959. He now lives in Los Altos.

Karl Prussion was one of the two friendly witnesses at the House Un-American Activities Committee hearings during the City Hall student riots in May, 1960.

Only a longtime member of the Communist Conspiracy, such as Mr. Prussion, could present this shocking, documented expose. He states that the Communist Party in the United States is more influential in economic, political and social circles than ever in its history. He demonstrates the relationship of this internal influence with the external pressures of International Communism directed from the Soviet Union. And he gives his first hand evidence to prove these charges!

Despite a vicious campaign of vilification and harassment, Mr. Prussion has had the courage to continue to tell:

- Why Americans Become Communists.
- Why Communists Leave the Party.
- How Communists have been brain washed into silence when they do leave the party (instead of alerting their fellow citizens to the danger of this conspiracy).
- How powerful and influential this well organized, well trained minority is.
- How these "dedicated few" manipulate innocent people and organizations into unwitting dupes.

- How far into our political organizations and government the Keds have managed to infiltrate.
- What the aims of the Communist party USA really are.
- Where the direction of this conspiracy originates.
- What Americans can do through legislation.

These and many more questions which have perplexed and puzzled loyal Americans regarding internal subversion will be answered by one who has lived inside this conspiracy for 26 years.

THIS DOCUMENTATION IS NOT FOR THE TIMID: MR. PRUSSION PULLS NO PUNCHES; HE CITES NAMES, PLACES, AND INSTANCES OF RED SUBVERSION!

But, if you want to know the true facts about these home-grown traitors locally and nationally, DON'T miss his talks.

William Z. Foster, former head of the Communist Party, U. S. A., wrote:

"When a Communist heads a government in the United States — and that day will come just as surely as the sun rises — that government will be a Soviet government, and behind this government will stand the Red Army to enforce the dictatorship."

"Under the dictatorship, all parties — Republican and Democrat, Progressive, Socialist, etc. — will be liquidated."

J. EDGAR HOOVER SAYS "Public indifference to this threat is tantamount to National suicide." It is the duty of every loyal American to arm himself with these facts.

Because of the non-partisan nature of internal subversion, Mr. Prussion's talk should be of interest to everybody — friends, neighbors, members of ANY political party. Ask them in turn to pass the word.

Flag Waved Freely, as Usual

The State Senate's Education Committee braced itself for a blow last week as it sat down to hear the annual exhibition of flag-waving that goes along with the annual chase-the-Commies-off-the-campus bill.

The committee was not disappointed.

Before it was a trio of bills to outlaw Communist Party members from holding a job in any Wisconsin school or from speaking or debating on any campus, and to compel high schools to teach two semesters of civics instead of the usual one.

The cast of characters (and we use the word advisedly) was unchanged—Sen. Gordon Roseleip of Darlington, former State American Legion commander who sponsors this kind of legislation as a kind of reflex; Bob Siegrist, an ultra-right-wing radio commentator, and one Fred Munkholm of Neillsville, who added a funny note to this year's hearing by expanding the usual womb-to-tomb definition of welfare to "conception to resurrection."

The senators may have greeted Siegrist a bit warily, in that he is reputed to have been the source of "information" behind Sen. Jerris Leonard's recent and ill-fated witch-hunt against the Daily Cardinal, a U. of W. daily newspaper. But he treated them only to a 12-page statement about

communism which took 30 minutes to read.

Senator Roseleip was in excellent form, however. Pointing to the committee's flag, he bellowed, "I'm proud of that great flag. Communists are enemies of that flag. I am a flag waver. And what great flag could I wave than that of the United States of America?" All of this was hardly relevant to the bill, but Roseleip knows it goes over big at American Legion picnics.

* * *

The committee also heard from Jim Dan Hill, former president of Superior State College and former commander of the 32d Division; from Walker Wyman, president of Whitewater State University, and Robert Clodius, a vice president of the University of Wisconsin. They were all against the chase-the-Commies-off-the-campus bills. And they had been there before, too. Patiently, they explained about the protections against communism, about the role of free speech in the educational process.

It was all a tale twice told, and thrice.

Maybe it is a part of free speech, too, to give Roseleip, Siegrist & Co. a chance to exercise their tonsils and wrap themselves in the flag.

But it's pretty hard on the flag. And on the senators.

Communist Assails Reuther Greatest Problem for U. S.

ex-communist turned rer told a Memorial Hall ence estimated at 1,250 day night that United Workers Pres. Walter her "is the chief instrality through which Comis expect to take us to nism through the back."

ie is the greatest prob- that confronts America y," Prussion said, "be- he is waiting to call a

political strike in support of demonstrative activities which could lead to insur- rectionary activities" against the government.

Tells Own Union Activity

Prussion said that while he was a Communist he took part in organization of a UAW local at a DeSoto plant in De- troit partly through inventing an issue, with the help of a Communist doctor, over use in the plant of a cleaning solu- tion containing a small amount of wood alcohol. A charge that the solution was injurious to workers' health was trumped up, he said.

"It's a tragedy that six peo- ple in the plant were able overnight to organize 6,000 persons into a UAW-CIO unit," Prussion said. "And Walther Reuther says there is no Communist infiltration in the union."

Describes Infiltration

Prussion described methods

he said are used by party members to infiltrate such groups as church organiza- tions, the National Assn. for the Advancement of Colored People, Democratic Clubs and Parent-Teacher Associations.

He said Robert Kennedy, now a Democratic senator from New York, once set Communist Party membership at "only 10,000" and quoted Kennedy as saying the party posed no real threat in the nation.

"There are really 40,000 Communists in the United States," Prussion said, add- ing, numbers are not really important because "the dan- ger is that one member is expected to lead 100 in the organizations into which he infiltrates."

Prussion said communism seeks to establish a "strong, autocratic left-wing adminis- tration in Washington that would eventually control the individual from birth to death."

He said such a trend is al- ready well under way, but that university professors, members of the clergy and others "say it's not commu- nism, but welfare statism or socialism."

Prussion said he has "no quarrel" with any American "who is an honest, Christian liberal" who believes the na- tion should disarm. "My quar- rel is with a certain clique of professors, scholars and some clergymen who sit in their white towers and embrace and support all of the Com- munist objectives every time the Kremlin presses the but- ton."

Terms King a Tool

"If we were to legislate all the objectives" espoused by the "clique" the nation would "now be an appendage of the Soviet Union," Prussion said.

He labeled civil rights leader Dr. Martin Luther King Jr. "a tool, a very ef- fective tool, of the Commu- nist conspiracy" because, he said, King espouses civil dis- obedience and lawlessness, the kind of civil strife on which communism thrives.

Prussion said "he doesn't believe King has the support of the majority of the people in the United States and this was proved "by the fact that he had to appeal for hun- dreds of clergymen to come down to Selma to make him look good . . ."

King "in my opinion . . . is not worthy" of a Nobel peace award, Prussion said.

Prussion said the way for Americans to best fight Com- munism is to join and be- come active in politically conservative organizations.

Praises Birch Society

Prussion's other comments included these:

The John Birch Society "has my respect, and I'm grateful to them as the type of conservative organization that can develop in Ameri- ca and save our country." He quoted former Soviet Premier Nikita Khrushchev as saying the Birch Society is the greatest threat to communism present in the U.S.

The United Nations organi- zation is considered by the Communists as the instru- mentality through which they will take over the world through peaceful means.

Communist speakers should not be allowed on campuses of American uni- versities.

The U.S. Supreme Court has made it possible for the American Communist con- spiracy to function as the "illegal legality" of the coun- try's destruction.

Prussion, who now lives in Los Altos, Calif., said he was lured into the party in 1933 by teachers at Wayne State University and dis- covered within four years he had made the "gravest mis- take" of his life. He stayed in the party and from 1947 to August 1959, was an FBI informer.

Prussion's appearance was sponsored by the Racine Pa- triots. Cliff Thomallo, chair- man of the program, said the Patriots are an informal volunteer group organized to underwrite the lecture, to which admission was free. Thomallo is training director at Twin Disc Clutch Co.

Ex-FBI Counterspy to Talk May 10 in Memorial Hall

ormer FBI counterspy Prussion will lecture in Memorial Hall at 8 p.m. Mon- day, May 10, on "America, ke Up!"

ie will be introduced by ritt Hill, chairman of the ine Patriots which is spon- soring the lecture. The group committee of volunteers up to present Prussion's

lecture, said Clifford Thomallo who will introduce Hill at the lecture.

The group said Prussion, of Los Altos, Calif., joined the Communist Party while a student at Wayne State Uni- versity in Detroit in 1933, later became disillusioned and served as an FBI undercover agent in the San Francisco Peninsula area, the lecture sponsors said.

The group added that Prussion says the Communist Party in the United States is more influential in economic, political and social circles than ever in its history and he outlines the relationship of the internal influence with the external pressures of in- ternational communism di- rected from the Soviet Union and gives first hand evidence to support the charges.

Prussion will participate in a question period after the lecture.

FBI
COMMUNICATIONS ROOM

Dear [redacted]

Your letter of May 14th has been received, and the thought which prompted you to write is appreciated. I am indeed encouraged to know of your support and want to thank you very much for your generous remarks concerning my administration of the FBI. It is hoped that our future endeavors continue to meet with your approval.

Regarding the individuals you mentioned and your request for a list of reputable speakers, I would like to point out this Bureau is strictly an investigative agency of the Federal Government and, as such, neither makes evaluations nor draws conclusions as to the character or integrity of any organization, publication or individual. In addition, information in our files must be maintained as confidential pursuant to regulations of the Department of Justice and is available for official use only. Therefore, I am sure you will understand why I cannot comment as you desire. Karl Prussion assisted this Bureau by furnishing information on subversive activities from November, 1949, to July, 1958, during which time he was compensated; however, he was not a Special Agent. His personal ventures, opinions and comments are strictly his own, and the FBI is not in a position to comment on these in any way whatsoever.

In response to your request, I am enclosing some material on the general topic of communism. Perhaps you may also wish to refer to my books, "Masters of Deceit" and "A Study of Communism." These were written to help readers gain an insight into the true nature of communist activities, both in this country and abroad. Copies may be available at your school or local library.

Sincerely yours,
J. Edgar Hoover

J. Edgar Hoover, Director
Federal Bureau of Investigation
Washington, D.C.

Dear Mr. Hoover:

I would like to commend you for your work in the fight against the evils of the communist conspiracy. It is most evident to me that if it were not for people like you, we might now be a satellite of Moscow. I have hopes that you will not retire for many years, because this country truly needs a man like you.

Presently, I am a high school senior in [redacted] and during the past year and a half I have become most interested in the Conservative fight against communism. I have done extensive reading concerning this topic of the communist conspiracy. Many of my friends are unaware of the conspiracy and I have been trying to show them what is happening. Slowly, I have progressed with some of them, but others have come to see the truth. Recently, our city had the opportunity to hear Karl Prussion, as you know a former F.B.I. counterspy, speak about the conspiracy.

I had heard other speakers on this subject, but I feel that he delivered his message in a most meaningful and factual manner. Some of my friends asked me: "Is he credible? Why should we believe him? Could he still now be working for the communists?" I would be most appreciative if you would send me a letter, so that doubters might believe Mr. Prussion's message. I felt that no other, but you, could achieve this purpose.

Since we are planning to procure other speakers for this city in the future, I would also appreciate it if you would send me some kind of list of reputable speakers which you would recommend.

Also, I am greatly disturbed with Martin Luther King and his communistic leanings. I have read how you feel about him, but I would like something for my own personal reference and also for my friends.

I have tried to convince these people many times and in many ways concerning the conspiracy. They agree with me that you are one of the really reliable sources to which we can turn. Besides a list of reputable speakers and something about Mr. King, I would also like something about Walter Reuther and his actions. I would like this information for there is a great influence from labor in our city and, if I can only help to wake up these people; I know that many of them will see the light.

Mr. Cliff Thomallo gave me permission to use his name as reference. He is doing an excellent job in this area to wake up the people to the communist conspiracy. I would also be most appreciative, if you would feel free to send me any additional literature which is at your disposal.

ONCE OVER ... LIGHTLY

By Jim Muehleisen

One of this generation's outstanding achievements is going both ways at once: We have invented, innovated, refined, applied and revised more things to do still more things at a faster rate with better quality for less; yet, we have compiled a steadily climbing divorce rate, carrying with it a myraid of social adjustments, some of which are unlikely ever to be either cured or improved.

Violent death on the highways is not to be taken lightly, and as a friend recently stated, after seeing a man die on I-94, "I was white and obviously shaken when I made my next call: there were still bloodstains on my clothes from trying to help the injured, but one poor fellow didn't make it. He was going through that final nervous quiver which just precedes death."

Studies have been made and many of them clearly indicate that drivers go through a psychological change when they get behind the wheel. These changes

Former Counterspy Warns Against Ivory Tower Cliques

Nearly 1400 Hear Talk Rejecting Basic Commie Split

Karl Prussion, former Communist and F. B. I. counter spy told nearly 1400 people at Memorial Hall Monday night that, "the Racine Journal editorial writer who wrote Scrutinizing the 'New Left' was mentally immature on the subject of communism or was openly cooperating with them."

Prussion went on to say called the local police, that if the communists who provided both plain succeed in making people clothesmen and unbelieve that there is an formed police throughout actual rift between Peking the entire meeting. and Moscow it will be the "My basic quarrell," said Prussion, "is not with the many uninformed and well

National Insurance Women's Week

Racine's women in the insurance business will observe National Insurance Women's Week starting May 17, according to Mrs. Helen Stephan, chairman of the annual dinner meeting held May 12 kicking off the observance.

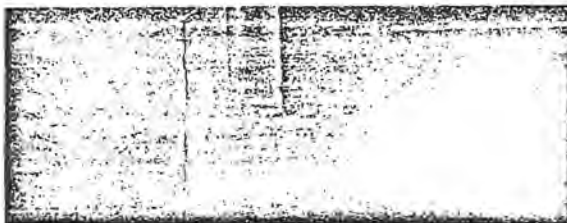

The dinner featured a talk entitled "Down Memory Lane" by Miss Ada Iselin, historian for the Insurance Women of Racine chapter. More than 50 persons attended the dinner and business meeting held at Meadowbrook Country Club.

Miss Iselin traced the history of the Racine Chapter from its inception in 1942 to the year 1946 in a talk given last year. Last night, she talked about the activities of the chapter from 1946 to 1953 and introduced the charter members: Mrs. Martha Petersen, Miss Grace Benson, Mrs. Ole Downing and herself. Each member of the chapter is an employee of a member of the Racine Insurance Board.

It was noted that the Racine Women in Insurance Chapter is a member of the largest national professional women's group, Miss Iselin said. She stated that the national organization, soon to be called an international group, consists of 140,000 women.

"However, we are not doing a good enough job selling the idea of being an insurance woman to enough women," said Mrs. Stephan to the Leader. "We feel that there should be more publicity on the insurance business so that more women become interested. It should be glamorized on TV like being a doctor is."

The Racine Chapter meets each fourth Tuesday of the month at various places, designating every other month to a study of insurance or a speaker on some vital associated topic.

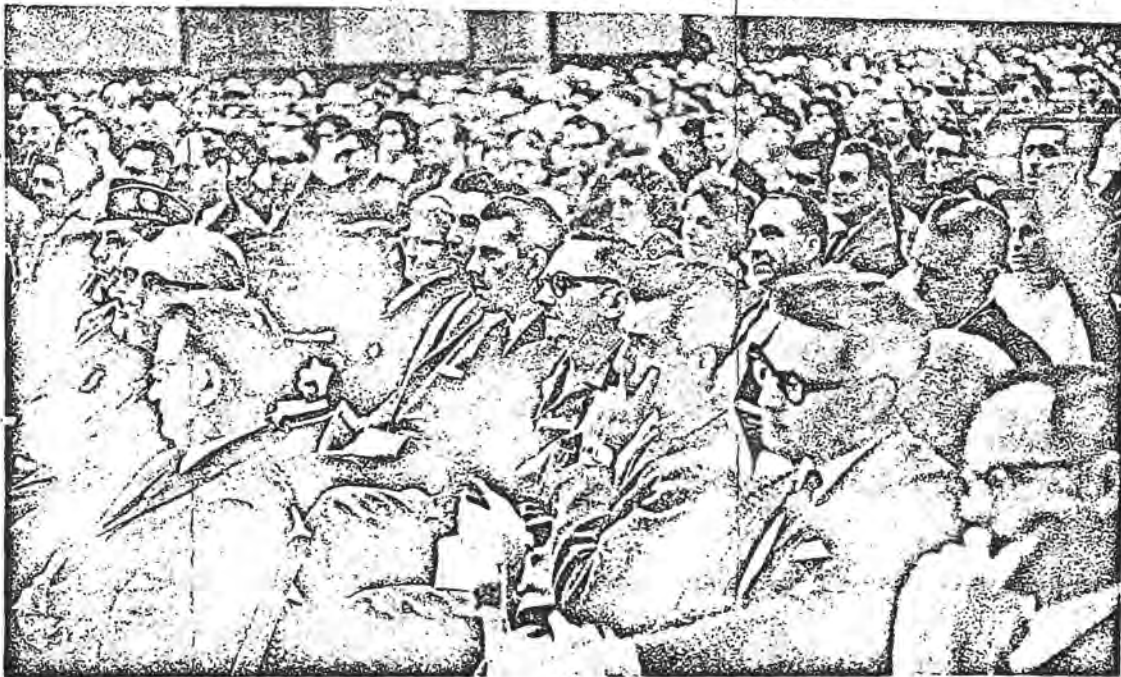

Karl Prussion (former Communist and F. B. I. counter-spy) is shown above addressing a near-capacity audience in Memorial Hall Monday night.

Earlier Prussion had received an anonymous telephone call at Hotel Racine from a man who Prussion said wanted to see him in his room. The man is reported to have said he was a "friend of the late President Kennedy," and wanted to see Prussion. When it was suggested he meet Prussion in the lobby, the man did not show up. As a result of the call, Prussion

ing communistic objectives, but with the numerous professors and clergymen who form a clique in their ivory towers and never miss an opportunity to back every communist drive that comes along."

It was an appreciative audience who heard Prussion as they applauded him several times through his speech.

(Cont. on page 2)

Shown above is part of the Monday night crowd gathered to listen to former Communist and counter-spy for the F.B.I. Karl Prussion of Los Altos, California. In the front foreground to the left are Cliff Thomallo, chairman of the meeting and Merritt D.

Hill, Case Co. president, who introduced Prussion. Both uniformed, and plainclothesmen from the Racine Police Department were in the audience, as a result of an earlier call to Prussion in his hotel room by an unidentified caller.

Oh, there ought to be a law
To protect our native shore
From the Bolshevik roar
And the cooperative store
For there's lots of dirty Reds
Hiding underneath our beds—
Oh, there ought to be

—From an old song.

Communists have infiltrated the government, unions, colleges, churches, the civil rights movement and the press but the John Birch society is "the beginning of a movement that can save the nation."

That in essence was the message brought to Racine Monday night by one Carl Prussion, billed as a speaker who would give his audience the lowdown on Communism. His talk was sponsored by the Racine Patriots, described by the chairman of the meeting, Cliff Thomallo, training director at Twin Disc Clutch co., as an informal group organized to underwrite the meeting. (A collection was taken up to help finance similar activities in future.) Merritt D. Hill, president of the J. I. Case co., introduced the speaker.

Prussion, who said he joined the Communist party as a college youth in depression-struck Detroit in the early thirties but after some years became disillusioned and became an informer for the FBI, described UAW Pres. Walter Reuther as

"the greatest danger in America today" and "the chief instrument through which the Communists expect to take this country to Communism through the back door."

Hits At Journal

He said Reuther is "waiting to call a political strike that could be catastrophic for the nation." At one time "Reuther worked under my wing when I was a section organizer for the Communist party on the west side of Detroit," Prussion said, adding that he and Reuther "both courted the same girl for a while and he later married her—thank God I didn't."

Prussion also charged that the writer of an editorial, "Scrutinizing the New Left," in the May 6 issue of the Racine Journal Times "is mentally immature on the subject of Communism or is openly co-operating with the Communists." (The editorial listed a number of new groups that have sprung up on the far left

and warned that "public attention and awareness to such radical organizations is necessary.")

Other Charges

He also said that:

- The U. S. supreme court has aided the communists in becoming a "legalized illegality" by decisions affecting the Smith Act (controlling subversives) and the Walter-Mc-

Carran Act (regulating immigration).

- That Martin Luther King, chairman of the Southern Christian Leadership conference and Nobel peace prize winner is "a tool, a very effective tool, of the Communist conspiracy."

- That the UAW and other AFL-CIO unions are "fighting good Americans, not the Communists."

THE RACINE LABOR • 5

- That professors and newspaper men who grew up under the New Deal are "indoctrinated with welfare state and socialistic" ideas which make them soft on Communism.

- That Bishop James Pike of the Episcopal church is a "Marxist-Leninist."

- That the word "fuzz" used by college students to describe policemen, was originated by the Communists 30 years ago.

by Loren Norman

AFTER receiving a letter from Mr. Merritt Hill, president of the Case co., inviting me to go to Memorial hall last Monday night and hear one Carl Prussion tell the "truth about Communism" I did just that.

But he didn't tell me anything about Communism that I didn't know. He told me a lot about Carl Prussion, however. For one thing it took him a heck of a long time to find out that the Communists are evil, deceitful, lying and subscribers to the theory that the "ends justify the means."

"Blue" Jenkins, the president of our labor council, says it took him only three months to get their number—that was when the Communists were organizing a hunger march on Madison and the Red generals decided to put some of the Negro leaders right up front in the march—so if there was trouble the Negroes would be the ones hurt while the generals in the rear could cry "police brutality" and pretend to be great defenders of the Negro cause. That was a typical Commie maneuver in those days and "Blue," in his teens then, saw through it immediately. But Prussion, even after college, continued to play on their ball team.

We in the labor movement don't need a Prussion to tell us about Communist tricks or treachery. Personally, I've seen them in action, in the coal fields, in the unemployed movement of the 30s, in the UAW and the CIO. It was almost 20 years ago, for example, that Racine unions were in the forefront of the fight to oust them from positions of influence and Meyer Edelman, a leading Communist in the Steelworkers union referred to me as "the Westbrook Pegler of the labor press" because of my articles opposing his clique. And, as usual, our UAW delegates were in the forefront of the anti-Commie battles in the UAW, too.

IT WAS disgusting therefore, to hear Prussion refer to Walter Reuther as the "chief instrument" through which the Commies hope to take over this country and particularly his aside reference to Mrs. Reuther. No labor leader is more condemned by the Communist press than Reuther, who is generally given credit as a leader of the fight to oust the Commies from positions of influence in the UAW and the CIO—and that is just what was done.

His reference to Martin Luther King as "an effective tool of the Communist conspiracy" likewise shows how badly mixed up he is. King for the most part has been responsible for the non-violent nature of the civil rights struggle where he has been involved—and always is under attack from more leftist Negro leaders and particularly from the Communists.

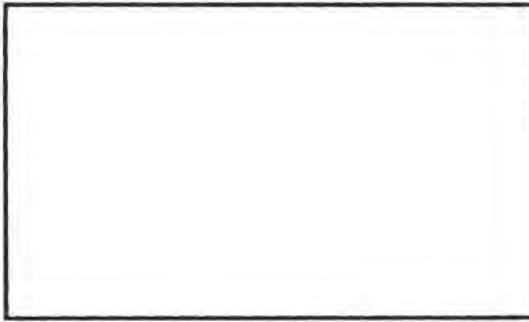

Prussion really gave himself away, however, when he said that ministers, professors and newspapermen who grew up in the New Deal days had been brainwashed and favored a strong all-powerful central

government which would lead to Communism. He is against the past 30 years and the progressive steps that have been taken by government to improve the lot of the people. He and the John Birch society, to whom he looks for our country's salvation, want to repeal the 20th century.

THE trouble with Prussion and other ex-Commies who "see the light" and then make a career of telling the rest of us we are not alert to the menace—is that they swing as far to the right as they were to the left. And they keep in their veins some of the old Commie teachings about conspiracy, for they view all who disagree with them as part of the conspiracy to turn this country over to the enemy. And their scatter-gun charges against nearly everybody makes it harder to pinpoint and oppose the real Commies.

My folks came to this country 50 years before the American revolution and I'm sure the native Americans who lived here then would have had the proper phrase for Prussion:

"Ugh, paleface—speak with forked tongue."

Dear Mr. Hoover:

Sorry to trouble you again but, in conscience, I must. I know of no more reliable source of information than your bureau. God love you!

As you are aware, I'm sure, there are unconscionable "citizens" who would eliminate the local police and sheriffs with their deputies and replace them with review boards and state police. I know that you have been very definite in your thinking and statements on this element that would disarm our municipal authorities.

Could I have your statements--as publicized--so that I might use them among the study groups that I have organized for the purpose of studying communism and its methods of infiltration? Perhaps you could send me a half dozen copies of these statements. With your permission I could reproduce these for further circulation.

I think I mentioned that I am a member of THE JOHN BIRCH SOCIETY and have also volunteered as a section leader for this area. I am also a member of the CARDINAL MINDSZENTY FOUNDATION to which I have also volunteered for the purpose of creating study groups among Catholics.

God love you for the fine work you are doing! Sure hope you do not think about retirement--for yourself....though, Lord knows, you deserve a rest.

To The Sentinel:

All my life I've been sensitive about condemnation without investigation. All my life I've been suspicious of the person who has only bad to say about another. When I was a boy my mother often reminded me not to expect truth from the enemy of truth.

I recall this counsel again and again as I read the continuous flow of derogatory epithets in press and radio and television concerning the John Birch society, the Christian Crusade, the Christian Anti-Communism Crusade, the Dan Smoot Report, and so many others. Being a simple person, I reason simply:

If I want to learn about God, the atheist is not the man to consult; if I want to learn about Christianity, I don't go to a Mohammedan; if I want to learn about American heritage, the Constitution, I don't consult a Socialist or a Communist or a one worlder. Of course not. I go to a theist, a Christian, an authority on American history — one who loves America and believes in America. I investigated.

What I discovered: The John Birch society is not a

secret organization. The local library has a copy of the Blue Book, the bible of the society; the Christian Crusade puts out a magazine that tells of all its activities; the Christian Anti-Communism Crusade issues a regular bulletin telling of its programs; the Dan Smoot Report is available to anyone who wishes to subscribe to it.

I found a member of the Birch society and attended several meetings. Nothing secret about them. While at the meetings I knew I was among people of character, men and women who were giving of their substance in order to inform the American mind of the Communist conspiracy. I listened to lectures by Robert Welch, Billy James Hargis, Dr. Fred Schwarz, Dan Smoot and others of the same caliber. Their alignment com-

pared with the great crusaders and patriots of truth—Apostle Paul, Washington, Jefferson, Lincoln, J. Edgar Hoover. For me not to support these patriots of truth and freedom would be treason to America.

Flag's Story

To The Sentinel:

I will raise our flag again today. There is no special marking on the calendar. It is merely another day of wholesome freedom in America.

But June 14 was a special day—one marked in red on my calendar: Flag day, the day of the Stars and Stripes that congress adopted as our own to tell the story of our birth, the story of a nation that is free: America!

Many memories came to me as I let the colors trim to accommodate the wind. I recalled the first flag I came to know and love on a Dakota farm. It was coarse and sturdy, made by a mother's hands grown strong on virgin soil that let our family live and build and grow in size, that let us grow in love, in happiness that came to those who'd met the challenge of their times, leaving their homes in foreign lands to visit freedom's shores.

It was a very special day, that day we raised the first and only flag we'd owned. My father told us then in his simple Polish tongue of how each star and stripe and color came to be. It was a lesson I could not forget—the story of freedom and the stars and stripes, and the cost of each of them. He told of the men and women who'd thought of us when they paid the price—and how they prayed we'd not forget the meaning of the flag... and sometimes parents of today must ask themselves even as I must ask myself: How well have we remembered, we whose parents gave so much to keep us free? How often do we fly the flag to tell the story it contains.

Letters TO THE EDITOR

Dear Ed:

Is there a free man to lead us modern slaves of evil back to normalcy?

Who could put the world aright amidst the chaos that we see? . . . A man with greatness in his heart--with goodness, and all the attributes it implies: Kindness, charity, and brilliance in the ways of men; conviction, dedication, confidence in himself and in the destiny of MAN; faith in God made manifest in Christ; courage that knows no end.

Who can lead this world through the labyrinth of immaturities that make men grains of sand without the will to live as men? Who can charge the souls and minds of men to expose and erase the avenues of treason that have taken men into the jungles of despair where riots and violence have stifled the breath of freedom in the streets--in the homes where mothers and fathers sometimes are afraid to close their eyes for fear that tragedy will visit their children while they sleep?

Is there such a man? Yes--there is.

A new leader has shone on the horizon! Few have recognized the significance of his kind in this dark hour of world crises--but our nation, the people of the world, the free and slave alike, will come to know him soon. A new light has shone . . .

With Tex Reynolds

Regarding Cry of 'Police Brutality'

Dear Tex: "Police brutality!"

The cry becomes more frequent each day in voice and in print . . . and many Americans wonder why, not recognizing the evil intent of the minds that give it birth: The cry is the seed of lawlessness encouraged by the elements that would destroy all respect for personal freedom as insured by law and order, knowing that a nation without law is destined for the fall. "Police brutality" are words carefully chosen to do a job. Their aim is to destroy our respect for local police in favor of a state police.

Another strategy of those who would have America sicken herself to world helplessness is the proposed adoption of the local police review board composed of civilians who have political expediency in mind — not respect for the law. In communities where this has been manipulated into existence, faithful, courageous policemen find themselves defending their arrests of rapists, murderers — criminals — to a point where it is difficult to determine who is on trial, the police or the criminal.

Under such circumstances, is it a wonder that fine, rugged men of character are reluctant to seek and accept police appointments? A simple review of the ever-increasing crime rate — 13 per cent over last year — will testify to the success of the untruthful campaign of the "police brutality" and "review-board" infections that so often impel conscientious policemen to perform their duties under duress, criticism, and condemnation.

Police brutality! This is a lawless propaganda that would make slaves of free men and bring chaos to the world.

Who is on trial?

SPECIAL CORRESPONDENTS' LIST

We have received a letter from Mr. Thomallo dated 8-21-65 requesting reprints of the Director's views on civilian review boards.

Mr. Thomallo is on the Special Correspondents' List. We last corresponded with him on 5-3-65 with an in-absence reply due to the fact that he had promoted a lecture of Karl Prussion. Since 1961 we have declined to send him material in volume as it was learned he was also using material put out by [Redacted] In the incoming Mr. Thomallo notes that he is a member of the John Birch Society and also a member of the Cardinal Mindszenty Foundation.

He is constantly involved in activities that do parallel views to a degree of the Director and the Bureau. He holds the Director in high esteem and has great respect for the FBI. However, in view of the above affiliations, it is believed that he should be responded to by an in-absence reply and removed from the Special Correspondents' List.

RECOMMENDATIONS:

1. That Mr. Thomallo be removed from the Special Correspondents' List and, if approved, that this memorandum be forwarded to the Crime Research Section of the Crime Records Division for such action.

Dear Mr. Hoover:

I have just renewed my subscription to "THE WORKER" of the Communist Party. I am enclosing a xerox copy of my check so that you may keep it on file.

I have found "THE WORKER" extremely useful when lecturing on communism before colleges and universities, churches, service clubs--anybody who will listen to the documented evidence of that menace that confronts us, as you have so often told us.

100-10
On January 23, 1966 we shall have [redacted] former Cuban, in Racine to speak to the citizenry on just how easy it was for Castro to take over in Cuba--and how easily deceived and gullible were the executive leaders there. As your files will reveal, whether in Arizona or Wisconsin, I cannot, in conscience, remain silent on those things I know to be jeopardizing our free America--even though the price of combat is not cheap.

Since my arrival here in the winter of Nineteen Sixty-four, I have initiated many programs, study groups, nationally known speakers like Karl Prussion, [redacted] radio and television programs, chapters for The John Birch Society. Now that [redacted] is to be with us I should like at least one fine authentic piece of literature to give to each person who comes to here him....and since the president of the J. I. Case Company is helping me in this endeavor, I feel that our turn out should be at least sixteen hundred persons. Do you have such a piece--or can you recommend one, one that will arouse and alert the "sleepy" citizen? I shall appreciate hearing from you.

About the Speaker

Mr. Serafin G. Menocal is an electrical engineer, Cuban citizen, who started to work with the Cuban Electric Company, at Havana, twenty-seven years ago as a student engineer. In 1959, then occupying the position of Vice President and General Manager of that firm, he resigned because he did not wish to live under the Communist Government which Castro was implanting in Cuba. Since that time he was worked in New York where he is an executive of American & Foreign Power Company.

Mr. Menocal took a very active part in different civic activities in Cuba, and was interested and active in the planning and development of the electrical industry in that country.

He was President of the National Council of Boy Scouts of Cuba, Vice President of the National Electrical Engineers Association, Director of the Cuban Society of Engineers, President of the Lions Club of Camaguey, and a member of the Rotary Club.

Will America Survive?

"As long as capitalism and socialism exist we cannot live in peace; in the end, one or the other will triumph--a funeral dirge will be sung over either the Soviet Republics or over world capitalism." -- Lenin

"First, we will take eastern Europe, then the masses of Asia, then we will encircle the United States which will be the last bastion of Capitalism. We will not have to attack. It will fall like an over-ripe fruit into our hands." -- Lenin

Lenin advised his followers: "... to agree to any and every sacrifice, and even -- if need be -- to resort to all sorts of devices, maneuvers, and illegal methods, to evasion and subterfuge, in order to penetrate the trade unions, to remain in them, and to carry on Communist work in them at all costs"

In 1934, while they were working and studying the labor movement in Russia, Walter and Victor Reuther wrote their friend, Melvin Bishop, in Detroit, Michigan: "... the daily inspiration that is ours as we work side by side with our Russian comrades in our factory, the thought that we are actually helping to build a society that will forever

end the exploitation of man by man, the thought that what we are building will be for the benefit and enjoyment of the working class, not only of Russia, but for the entire world is the compensation we receive for our temporary absence from the struggle in the United States." They concluded their letter: "Carry on the fight for a Soviet America." Quoted from the book "NONE DARE CALL IT TREASON"

J. Edgar Hoover has said on different occasions: "We are at war with Communism and the sooner every red-blooded American realizes this, the safer we will be . . .

" . . . They have infiltrated every conceivable sphere of activity: youth groups; radio, television, and motion picture industries; church, school, educational and cultural groups; the press; national minority groups and civil and political units . . .

"The Communist threat from without must not blind us to the Communist threat from within. The latter is reaching into the very heart of America through its espionage agents and a cunning, defiant, and lawless Communist Party, which is fanatically dedicated to the Marxist cause of world enslavement and destruction of the foundations of our Republic."

Nikita Khrushchev said: "The United States will eventually fly the Communist Red Flag . . . the American people will hoist it themselves."

Our own U.S. Department of State Publication 7277, released in 1961, proposes: "The disbanding of all national armed forces and the prohibition of their reestablishment in any form whatsoever . . ."

" . . . McNamara makes public the list of 126 domestic bases that are to be closed or reduced. An additional 23 overseas bases are to be closed." Chicago Tribune, December 8, 1965.

These defense bases are in addition to the hundreds already closed by Secretary of Defense McNamara.

Walt Whitman Rostow, a high administration official of the United States Government, said regarding our no-win policy: ". . . It will not be a victory of United States over Russia."

"Religion is the opium of the people. Religion is a kind of spiritual gin (vodka) in which the slaves of capital drown their human shape and their claims to any decent human life. --Lenin

In February 1961 at the funeral of Eugene Dennis, Gus Hall, General Secretary of the Communist

Party, U.S.A., told Americans what to expect: "I dream of the hour when the last Congressman is strangled to death on the guts of the last preacher and since the Christians love to sing about blood, why not give them a little of it."

"... If the final hour of the revolution is allowed to come, the alignment will not be Nation against Nation, Jew against Gentile, Catholic against Protestant, Church against Church--the alignment will be God, against No-God." Clifford F. Thomallo

Congressman Francis Walter, Chairman of the House Committee on Un-American Activities, tells us what we must do: "Get the facts. Study Communism. You can't fight an enemy you don't know. This is a fundamental rule of warfare. Learn Communism's basic doctrines, its stragedy, its tactics; its line on current national and international affairs; the names of major Communist fronts and leading Communists and fellow travellers. This is minimum knowledge required for effective anti-Communism." Another time he said: "... get the help of others ... organize ... act."

"Have you encouraged members of your church to read about Communism and to learn of its evil nature? Have you urged formation of discussion groups to acquaint men and women with the challenge?" --J. Edgar Hoover.

"... and ye shall know the truth, and the truth shall set you free." Jesus of Nazareth

Last Hours

(As revealed by Kenneth Goff, a former Communist, to Congressional Committees, and in speeches and publications.)

"At that hour, large race riots are supposed to take place in every city of any size. Leaders of these mobs are to be carefully chosen and trained in advance. The disturbances are to be of such extent as to require sending large forces of police to those areas. While the authorities are trying to quell these riots, picked bands of Reds are to seize the radio stations and telephone exchanges. With the aid of their comrades, who are employed inside, all communications sytems are to be instantly crippled.

"Flying squads of Communists are to seize control of the water supply and shut it off; also the electrical power and gas. This means that no elevators or street cars are to be running. Homes would be without water, fuel or light. It would be impossible to communicate with friends or loved ones, even in another part of the city.

"Goon squads of professional murderers are to round up the people in the business districts. Men are to be held as hostages in some of the larger buildings. Women are to be turned over to the sex-crazed mobs to be ravished and raped.

"These are exactly the methods used in Russia, Spain and other places where the Communist Party has been allowed to organize and come to fruition. They expect to do the same thing in the U.S.

"Bridges, subways and street car stations are to be blown up. Downtown areas are to be isolated from the rest of the city. Sharpshooters and snipers are to be detailed in taxicabs and vehicles, which are to be taken over to wipe out the police, soldiers, uniformed persons and known vigilantes. Smoke bombs, properly located in subways, buildings and large stores are to add to the terror of the people.

"This is the day - the big day toward which every Communist is looking - and for which he is preparing. His entire training focuses at that point.

"When night comes, the city is to be in pitch darkness. Murderous bands of Reds will roam the streets, plundering shops and starting fires in old buildings. This will increase the panic and facilitate the surrender of women, children and old people, who will be held as hostages to hasten the surrender of unarmed men.

"Then, as the morning sun casts her first rays on the community, one will be able to see blood flowing in the streets. This is no idle dream. The Communist Party is working methodically and with deadly precision toward this objective. It can happen here. Unless we destroy the Red menace in America, the day is at hand when we shall suffer the same fate as our Christian brethren in Europe."

O say! can you see, by the dawn's early light,
What so proudly we hailed at the twilight's last
gleaming,
Whose broad stripes and bright stars, through
the perilous fight,
O'er the ramparts we watched, were so gallantly
streaming.
And the rockets' red glare, the bombs bursting
in air,
Gave proof through the night that our flag was
still there.

O say, does that Star-Spangled Banner yet wave
O'er the land of the free and the home of the
brave?

Dear Mr. Hoover:

Last night I went to Milwaukee to hear [redacted] of former Secretary of Agriculture Erza Taft Benson, and he quoted you on what to expect when one begins fighting the Communists--character assassination, smears, et cetera. I've used the quote many times myself while I lived in Tucson, Arizona, but I can't put my hand on it now.

I should be most appreciative if you would send me a copy of the article--or speech--in which you made it clear that the fight against communism is no small task.

Knowing you as we all feel we do, it is a disconcerting thought to think of what might happen to the Federal Bureau of Investigation during the present crisis if you should resign. We know that you have earned a rest many times--but we shudder to think of the Bureau without you.

Our prayers go up daily in thanksgiving for your great dedication. God love you!

'FLY THE FLAG'

Chicago, June 26—When every day I read about our soldiers dying in far away Viet Nam, I have to think about the poem "In Flanders Fields," which says in part: "If ye break faith with us who die, we shall not sleep, tho poppies grow in Flanders fields."

Today American soldiers are not dying in Flanders fields, but in rice paddies and jungles of Viet Nam. They are fighting against the communist aggressor who by terror, by fraud, and by lying has conquered many countries and now is trying to take over South Viet Nam, which is only one step in the Red conspiracy to bury us, to destroy free men and communities everywhere.

The issue in Viet Nam is freedom or slavery, not only in southeast Asia but in the very community in which you live today. American fighting men believe in the same principles proclaimed at Independence hall in Philadelphia on July 4, 190 years ago. Communism must be stopped and put on the course of ultimate extinction, or one day we'll have to fight it here in America.

I have lived under communism after the Red take-over of my native Latvia, and I wish it not even for my worst enemy. You don't know how much you have to be thankful for. Too many take it for granted.

Pray for the boys in Viet Nam. Fly your Old Glory and ring the bells on July 4, thus showing our friends and enemies that we have not broken the faith with our fighting men, that we love this country and liberty.

I rent just one room in this house, but I bought the Stars and Stripes from THE TRIBUNE.

FIRST CLASS FOR LYNDIA

Wilmette, June 28—It seems slightly ridiculous for Lyndia Bird Johnson to fly in the economy, tourist section of her trans-Atlantic plane with us peasants.

Why does a young man work hard to become President of the United States—so that his family can fly tourist? Why do crowds gather to see the famous and great? They want their heroes and the families of heroes to have a little something else.

I prefer my President's daughter to be comfortable and even a little pampered.

'CLOTHES DON'T MAKE ...'

Chicago, June 27—An article in today's TRIBUNE, headed "Experts Discuss L. B. J. Attire," reminded me of an experience at California Institute of Technology years ago.

Einstein

Walking by the campus of Val Tech one day I happened to fall in behind a man I supposed to be a professor. He was obviously deep in thought and walked very slowly. I noticed his suit hung loosely from his shoulders and needed pressing badly. He was anything but a fashion model. As I drew up beside him I saw the man was Albert Einstein.

May I suggest that men cannot be evaluated by the latest fashion in clothes or by the neatness of their appearance.

ELMO PETERSON

A MAN'S HERITAGE

Racine, Wis., June 28—My father was old fashioned. He skimped and saved the pittance given him for wages while he was yet a boy in a land across the sea—and these earnings paid his way to this land where he'd be free. Like his parents before him, he was made of solid stuff. He loved God and independence.

He loved the challenge of Dakota's plains, the wintry blasts of snow that covered homes and barns, the frosted air that threatened and often took the lives of those who lost their way. And he also loved the sturdy woman who gave me life.

Together they dug the soil and handled it until they made it bear their needs for sustenance—grains, fruits, cabbages, and such, without subsidies. There were times when they helped their neighbors thru the rough—and often this help returned to them during crises that confronted them. But this help did not steal their will to do.

Often I heard my father explain to me in a simple way so I could understand: "Man grows strong in soul and body thru work and struggle in his life. A life of ease and comfort and idleness never prepared a man to win a race of any kind—unless the contest were a race to surrender principle."

Independence, interdependence, dependence day! Which shall it be today, tomorrow, another day?

C. F. THOMALLO

THE WAY IT STARTED

Chicago, June 24—Not long ago—less than three lifetimes—many people "belonged" to government, more realistically to their rulers. A person's only rights, if any, were those allowed them by the ruler.

Then came July 4, 1776, when

'It's My Flag'

To The Sentinel:

Hated, burned and scarred;
pocked, stomped on and spat
upon by those who know not
what they do—yet loved by
those who know its parentage.
That's my flag.

Like the oak of good breed,
it weathers the winds of
crises new. Like the oak that
loses the glory of its dress
when winter comes, so my
flag suffers disrespect when
trouble brews in hateful men
who choose to be slave rather
than brave—who would be
Red rather than dead.

But like the oak of good
breed, it can lose its dress,
its limbs. The trunk itself can
be struck to the ground, yet
its roots can save its life.
And through the acorn that
falls to kiss the earth, it can
live again, holding the spirit,
the strength, the substance of
the old.

So, the flag of America, my
flag. It has suffered many in-
sults, hurts and splotches in
its day. But it was the agony
of its birth that made it
strong—for strength, charac-
ter and substance are not born
in the comforts of the weak.
It is the bending and testing
of the limb that brings mature
strength to the tree. So it is
the testing heartaches of the
American soul that make the
colors strong, deserving the
love and the respect of the
weak.

That's my flag . . . and I
hold it high for all to see. It
tells the story of America—a
spirit that keeps men free.

A WALK IN FEAR?

Chicago, June 6—The night I heard the news of the attempted assassination of James Meredith on his "war-on-fear" walk thru Mississippi I have never been so angry about any news event since President Kennedy was killed.

Meredith

Is this how "Americans" show their disapproval of someone—by killing? I am bitter and ashamed for those close-minded people who thought themselves American. Their actions are the kind that are played up by our country's enemies.

As far as I am concerned Meredith can walk across the country. It's a free country, isn't it? Apparently some of our residents think the country is free for only a chosen few and not the whole people.

GILBERT DE LEON

Chicago, June 7—Regarding Attorney Gen. Nicholas Katzenbach's statement about "walking any road in fear," no sensible woman would walk Chicago's streets at night—or even many areas in the day time. Nor would men walk many areas in the day time, either.

Streets thru city parks are often jungles. We would never let our children go there unescorted. Because our beautiful beaches can be reached only by traveling these "fear-ridden" streets, we cannot let our children use these facilities as they should.

Perhaps Mr. Katzenbach will figure out a way to correct this unwholesome situation for us Chicagoans.

MRS. JOHN TOGMAN

THE LESSON OF THE FLAG

Racine, Wis., June 3—This morning when the sun is up I will raise the flag again. There is no special marking on the calendar. It is merely another day of freedom in America.

But June 14 will be a special day—one marked in red on my calendar. That is Flag day, the day of the Stars and Stripes that Congress adopted as our own to tell the story of our birth, the story of a nation that is free—America!

Always, memories come to me as I let the colors trim to accommodate the wind. I recall the first flag I came to know and love on a Dakota farm. It was coarse and sturdy, sewn and patched many times by a mother's hands grown strong on virgin soil that let our family live and build and grow in size, that let us grow in love, in happiness that came to those who'd met the challenge of their times, leaving their homes in foreign lands to visit freedom's shores.

It was a very special day, that day we raised the first and only flag we'd owned. My father told us then in his simple Polish tongue of how each star and stripe and color came to be. It was a lesson I could not forget—the story of freedom and the Stars and Stripes, and the cost of each of them. He told of the men and women who'd thought of us when they paid the price—and how they prayed we'd not forget the meaning of the flag. Sometimes parents of today must ask themselves, even as I must ask myself: How well have we remembered, we whose parents gave so much to keep us free? How often do we fly the flag to tell the story it contains?

NEW HOUSING

Chicago, June 6—An encouraging experiment was announced by Mayor Daley last week as the new "Chicago plan" for financing residential rehabilitation.

Large expanses of the middle-aged areas of the city can be saved from deterioration if rehabilitation is done in the right places, properly, and in time. The Chicago plan holds promise because it will be done by a qualified agency with experience and expertise; it will benefit from a speed-up of procedures which will telescope the processing time, and it will be coordinated with over-all city plans.

The designation of the Chicago Dwellings association as the operating agency; the use of Sec. 221d (3) financing; and, above all, the grouping of a number of buildings for acquisition, rehabilitation, processing by the FHA, and, most importantly, for mortgage financing are encouragingly creative solutions to old problems. This grouping will reduce the FHA processing time from an ordinary nine months to 30 days, and will make available financing for rehabilitation on a scale commensurate with the problem.

Such innovations are long overdue. We commend the city and federal officials who have worked out the plan, and particularly Congressman Sidney Yates and Charles Swibel, CHA chairman, whose tenacity and resourcefulness broke a frustrating logjam. If the experiment succeeds, it can herald a new era in the fight against residential blight and blaze a trail of neighborhood regeneration across the nation.

Visit With Jim

To The Sentinel

I knew Jim. He was my neighbor's boy. He volunteered for Vietnam. Soon he was back. This time he came home to lie beside his fellow men who had gone before for freedom's sake — marines, sailors, airmen, soldiers. He paid the ultimate price to keep me free and comfortable at home—and I was uneasy about this price he had paid.

One night, after I had had my fill of things to eat, I went to visit Jim and the rest who sleep beside him there where the markers are all the same, except the names. Each had a flag for which he had died.

I looked to see if others were there to visit these lonely ones. None. Only the shadows of trees. I felt free to kneel and murmur quietly:

"Sorrow and sadness are not enough to bring you back, yet they're enough to scar my memory. I recall your letter to the family, the one that told of your need of things so important to the winning of the war—hope, support, love, the will for victory. I remember, too, the time you said: 'I'd like to have the sit-ins, the teach-ins, here with me. How can treason live in those we die to save?' I'll not soon forget those words, Jim.

"So long, Jim. I'll come back another time to visit you. Thanks for the freedom you've kept for us till now."

I felt helpless, strange, as I left the markers and the flags and walked back into the traffic of life to reflect upon Memorial day.

Gentlemen:

It is with a great deal of interest and concern that I submit my attempt at a comprehensive program for the defeat of our enemy--communism.

Though I realize that this essay is being submitted much in advance of the closing date of the competition, I am sending it along nevertheless. Whether it is worthy of note competitively, or no, I hope that it contains at least a germ of sound reasoning that deserves consideration at once for the cause of freedom.

I am of the conviction--and I feel that you are too--that we do not have many months left before we shall have reached the point of no return...if, as free people, we do not act at once.

Speaker Links 'Rights' Riots To Pro-Reds

"America can meet the challenge of communism and remain free!" Clifford F. Thomallo told members and guests of the Wisconsin Better Government Committee at The Colony Saturday afternoon.

"But the hour is late—and we must meet the challenge on all fronts with the strategy of education and the weapon of truth borne by dedicated alert Americans who love God, family and country above the comfortable materialistic expediency that precedes all nations who bow to communism," the Racine man said.

Present Crisis

Thomallo revealed, with an abundance of documentation, how the U.S. has come to its present crisis, outlining the initial causes of debilitation that gave birth to apathy, indifference and a comfortable presumption of security. He disclosed and confirmed the evidence of so called "Civil Rights" justification for demonstrations and riots and violence, showing in document and in actual pictures the background inspiration of certain aspects of these chaotic demonstrations and revolutions as emanating from trained Communist and pro-Communist agitators.

Thomallo told of the affectation of certain media of communications that have made it

(Con. on Page 14, Col. 6)

(Con. from Page 3)

well-nigh impossible to reach the masses of the American public with the truth about communism.

In analogy he explained how the antibodies of communism must be built against this continuous invasion of personal freedom as directed by the conspiracy that has infected every avenue of American life, repeating in substance, what J. Edgar Hoover of the Federal Bureau of Investigation has said over and over again.

Mrs. R. S. Brinsmade, Madison, reported on the increased expenses at the University of Wisconsin and commented, "One wonders if all the expense is necessary when much of the housing available at the university is vacant."

The next meeting of the state group was scheduled Nov. 5 at The Colony because of the central location of Fond du Lac.

ature speaker for a meeting of the Wisconsin Better Government Committee Saturday at The Colony will be Clifford F. Thomallo, Racine lecturer and author, who will speak on Americanism, Christianity, and Communism.

Thomallo, training director and personnel counselor at Twin Disc Clutch Co., spends most of his free time stressing the Americanism theme and has spoken as often as six times in one day to audiences varying from school assemblies to large patriotic rallies.

He is author of several books including "Strangers in My House" and "Get Well — Stay Well" and numerous short stories and articles. His writings stress patriotism and humanitarianism and carry that inner feeling that he stresses so well in his speaking engagements. He speaks five languages and has a bachelor of arts degree in philosophy.

The meeting of the state group will open at 10 a.m. with committee and other business. Thomallo will speak at 1 p.m. following a noon luncheon. Guests are welcome to hear Thomallo speak.

Ray Cordrey, candidate for Second District assemblyman of Fond du Lac County, also will address the group.

The Wisconsin Better Government Committee is a state organization dedicated to the principles of free enterprise with constitutional government for individual progress and prosperity and membership is open to anyone who believes in these principles.

February 3, 1967

Mr. J. Edgar Hoover

Dear Mr. Hoover:

CLIFFORD F. THOMAS

Yesterday at a meeting I heard a program which disturbed me greatly. It is so difficult to know what to believe these days and I do hope you can help answer some questions that have bothered me. Actually, it's difficult to put my finger on exactly what it was, but it just seems that something was not quite right in the presentation.

The speaker was Mr. Cliff Thomas, an employee of Twin Disc Co. in Racine. I have great respect for his sincerity, am sure he leads a fine Christian life -- he and his wife are adoptive parents of three children, two of whom are Mexican and Indian; they also tried to adopt a Negro child but the agency wouldn't let them. All his speaking, and he spends many hours at it, is gratis. All literature he gives away at his own expense, and he has a large assortment of booklets, pamphlets, etc.

The movie he showed (which was also purchased at his own expense) was Anarchy, U.S.A., dealing with the threat of Communist takeover in this country, and showing that we are in the last stages of the Communist plans following with great similarity the events in Cuba and Algeria. You perhaps are familiar with it. It says the Civil Rights movement is a cover-up for Communist aims. It gives the definite impression that Martin Luther King is a Communist; in fact, one of the last scenes of the movie is a close-up of a handshake between Ben Bella and Martin Luther King. The movie is meant to be a shocker, and it is. The torture pictures were appalling.

In no way was the picture mentioned to be a John Birch movie.

However, the last shot in the movie was of a "Support Your Local Police" poster. Mr. Thomallo never mentioned he was a Bircher. When I asked him directly if he were, he said, "Yes, and I also belong to" and listed about ten other organizations with specific emphasis on the Cardinal Mindszenty Society, about which I have so far found no information other than the little he told us. My impression was that he was deliberately trying to change the subject and I pursued it no further.

During the Question and Answer period after the movie, he mentioned that as a Catholic himself he felt free to criticize The Church and stated, "The Catholic Church is falling apart." He further stated that Communists were already 60% of the way through their plan to take over the Catholic Church; and that they were placing special emphasis on the Dominican Order because they want to see the teachings of St. Thomas Aquinas discredited. He also complained about the secularization of Catholic schools.

At the very beginning of his talk, Mr. Thomallo mentioned that he is in constant communication with you, Mr. Hoover. To people who have always had great faith in your integrity and judgement, and I am among them, this immediately gives more credence to what he says. But on thinking this over, what Mr. Thomallo said then was that he receives periodic reports from the F.B.I. and that he keeps you informed of all his activities in this endeavor of fighting Communism. Are you aware of his beliefs and how they are presented? Do you approve of his giving the impression of your agreement with him? He said at the end that you feel if there were 1000 people doing the type of work he is doing, the threat of Communism would be greatly abated.

Mr. Hoover, these are some of the points I cannot understand. Certainly Communists would be foolish not to take advantage of an American weakness like our treatment of some minority groups, but Mr. Thomallo never mentioned an alternative to the Civil Rights Movement (other than the generalization Love) to bring about equality for these people. I personally do not believe in the marching and demonstrations but can still believe in the sincerity of those who do. Mobs scare me. A friend of mine, a Negro social worker, said last week, "Who is more wrong, Father Groppi or those who say nothing?" That seems a fair question. I am currently

working with a Project Understanding group here in Racine, the aim of which is to help solve the racial problems through education and understanding, plus knowledge of each other as individuals. My picture was in the paper with two Negroes and another white woman; as a consequence I received a nasty anonymous phone call and some Nazi hate literature in the mail. This came as a shock to me for I did not realize any people around here were that warped in their thinking.

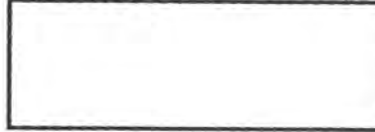

Probably what upset me most about the talk yesterday were his statements about the Catholic Church. I too am a Catholic and truly believe in my Faith. A period of change such as we are in requires adjustments but I believe that the Holy Spirit guides the Church in these things and that we will be stronger for it all. In your position do you really see evidences of Communist infiltration in the Catholic Church? Mr. Thomallo also objected to what he called "secularization of Catholic schools." I think part of what he referred to is the recent organization in our community of a Catholic Education Committee, comprised of members (pastors, principals, lay people) from Catholic schools in the same area as served by the Unified School District for the public schools. It is my impression that we are working together to benefit the children by pooling resources, both in materials and manpower. It no longer is practical in these days of government aid (I am a Republican opposed to so much of it, by the way) for each individual school to operate separately, especially when as a group we can get financial aid under some Titles of the Education Bill. I am an officer in this group and am sincere in my desires and efforts to help improve education for the Catholic school child in Racine. It seems unlikely to me that I am serving the Communist purpose by doing so. Am I mistaken in this belief?

Is the whole situation as serious as Mr. Thomallo would have us believe? Are we unable to count on even the Catholic Church for support in the battle against Communism? How can we help Negro people obtain their rights without gathering in mobs that are so tempting to those who want to incite riots? What can the average housewife believe in this day of Managed News?

Thank you, Mr. Hoover, for all you've done for our country. You have

always been an inspiration to us and we wish you well in the years to come.

Sincerely,

Dear

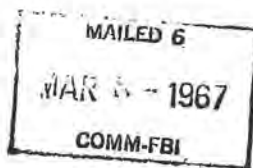

Your letter of February 28th has been received, and your confidence in the work being done by the FBI is very much appreciated.

I am glad to know of your interest in this Bureau, and enclosed is material concerning our organization as you requested. If you are not already familiar with it, you may also want to read the young readers' edition of "The FBI Story" by Don Whitehead. It contains the stories of many of our most interesting cases, and perhaps a copy of it will be in your school or local library.

In connection with your communication, I would like to inform you that the FBI does not have a junior organization of any kind.

Sincerely yours,

J. Edgar Hoover

MILWAUKEE'S OTHER VOICE

Will You Be Free To Celebrate

Christmas In '68?

Is John Birch A Modern Paul Revere
Milwaukee Metro News
Dear Mr. Borkoski:

"How can you support The John Birch Society," a friend of mine asked, "especially with so many odds against you -- the smears, the attacks on the Society? ... and I can't understand how you can tie up with this TACT committee, or have anything to do with Lat. Freedom Ring."

"If one understands the liberal media of communications," I said, "my support is as natural as life insurance. The John Birch Society, TACT, and Lat. Freedom Ring, are as American as George Washington."

"Now, Cliff," my friend groaned, "you wouldn't expect me to believe that! All your critics can't be wrong."

It was evident that my friend was not about to be convinced by anything I could say during a short lunch period. I invited him to my home -- and we spent hours going through many documents of the Federal Bureau of Investigation, testimonies of former FBI employees, government investigative committees' reports, works and directives of Karl Marx and Lenin -- and their successors, the Marxist-Leninists. Here are some of the findings we made together:

W. Cleon Skousen, who spent 16 years with the FBI, has this to say: "It is my personal opinion that the real cause of the wrath against the John Birch Society originated with a series of events in the Fall of 1960."

"Birch members had learned that the Communist Party was working for passage of a certain bill which was to be introduced as soon as Congress convened in January, 1961. This bill was designed to take away the funds of the House Committee on Un-American Activities so that it could not investigate the Communist Party. For many years the destruction of this particular committee in Congress had been a major project of the Communists in the United States. Since they had always failed in the past they thought this new strategy of taking most of the funds away from the committee should be a good stopgap measure. And for a while it looked as though it might succeed."

"Then the John Birch Society and other conservative groups began an all-out campaign to work through both parties to kill this bill. All through the Christmas vacation they continued the campaign. The success of these efforts became apparent when the bill came up for a vote. Democrats and Republicans combined to beat the bill by a vote of 412 to 8. It was an overwhelming defeat for a favorite project of the Communist Party."

"Whether John Birch members actually deserved all the credit for what happened is not so important, but the Communist Party certainly gave them all the blame and the Communist Party bosses sent out the word: 'The John Birchers have got to go!'"

Because of the cries that showed up in the press, The

MILWAUKEE METRO NEWS

Birchers were anxious to have themselves investigated by the FBI, the Senate, the House, and other legitimate investigative committee or agency. The California Senate Fact Finding Subcommittee on Un-American Activities was the first to make the investigation. Here is what the committee had to say in summation of a 62-page report:

"Our investigation and study was requested by the society, which had been publicly charged with being a secret, fascist, subversive, un-American, anti-Semitic organization. We have not found any of these accusations to be supported by the evidence."

On page 5 of the U.S. Senate document "The New Drive Against the Anti-Communist Progress" we read:

"The Reds for years have had phenomenal success in suppressing criticism of communism that was in any way specific, and therefore effective. They benefited politically, in psychological warfare, from what constituted a monopoly, or a squeeze play. This embraced the film and drama and look over our communications channels generally. Yet all this time it was considered perfectly proper for the Communists to lambast their foes without the least consideration for truth. Any attempt to stop them was at once branded as interference with free speech and civil rights, and cynically, as a threat to the free enterprise system."

In order to bring a bit more of the Red plan into focus, my friend and I dug deeper into other authentic documents. Here's what the AUTHORITIES say, not The John Birch Society:

Lenin states: "As long as capitalism and socialism exist we cannot live in peace; in the end, one or the other will triumph -- a funeral dirge will be sung over either the Soviet Republics or over world capitalism. We must build communism with non-Communist hands."

First, we will take eastern Europe, then the masses of Asia, then we will encircle the United States which will be the last bastion of Capitalism. We will not have to attack. It will fall like an overripe fruit into our hands."

Nikita Khrushchev said: "The United States will eventually fly the Communist Red Flag... the American people will hoist it themselves."

J. Edgar Hoover said on different occasions: "We are at war with Communism and the sooner every red-blooded American realizes this, the safer we will be. They have infiltrated every conceivable sphere of activity: youth groups; radio; television; the motion picture industry; church, school; educational and cultural groups; the press; national minority groups and civil and political units. ... The Communist threat from without must not blind us to the Communist threat from within. The latter is reaching into the very heart of America through its espionage agents and a cunning, defiant, and lawless Communist Party, which is fanatically dedicated to the Marxist cause of world enslavement and destruction of the foundations of our Republic."

Our own U.S. Department of State Publication 7277, released in 1961, proposes: "The disbanding of all national armed forces and the prohibition of their re-establishment in any form whatsoever."

... 915 of our defense passes have been stolen while our ... builds strong."

"Birch ... We dug further: Walt Whitman, administrator of the United States ... publicly regarding our no-win policy ... victory of United States over Russia."

In 1961 at the funeral of Eugene Dennis, U.S.A. Secretary of the Communist Party ... Americans what to expect: "I dream of the ... Congressmen is strangled to death ... the last preacher and since the Christian ... blood, why not give them a little of it. ... Francis Walter, Chairman of the House ... Un-American Activities, tells us what a ... the facts. Study Communism. You can ... you don't know. This is a fundamental ... rule ... Learn Communism's basic doctrine ... its strategy tactics: its has on current national ... affairs; the names of the major Communist ... leading Communists and follow travelers ... This is ... knowledge required for effective ... get the help of others ... organize ... act."

J. Edgar Hoover asks: "Have you encouraged members of your church to read about Communism and learn of its evil nature? Have you urged formation of discussion groups to acquaint men and women with the challenge?"

In a personal letter to me, after Senator Barry Goldwater and Governor Paul Fannin of Arizona assisted in an Americanism rally on October 4, 1960 in Casa Grande, Arizona -- a program sponsored by the local Junior Chamber of Commerce there -- J. Edgar Hoover wrote: "It is certainly vitally important that citizens accept the responsibility of becoming fully informed as to the exact nature of this menace, and I am pleased to know of your group's efforts in this regard."

My friend was quiet. He seemed a bit stunned. I tried to comfort him:

"The John Birch Society," I said, "is a response to the call for help -- to save America, the freedom of the world ... and this is a big order. The TACT committees, Lat. Freedom Ring, are more instruments getting accurate information to the American people. Anyone interested in American freedom is eligible to help out. Most people who criticize The John Birch Society do so out of ignorance -- but we love these people just the same."

"Did it ever occur to you to check on the news concerning us who would save America and compare the items in number and substance with those that criticize communism? One would think that communism is more popular than Americanism."

"Let me finish our little research project with the words of Jesus Whom I love very much, 'I told my friend ... and ye shall know the truth, and the truth shall set you free.' God love you!"

It takes a while for any campaign to gain momentum, especially one in opposition to prevailing politics. Mr. John Q. Public has the apathetic attitude. "What can I do? I'm only ONE person?"

It took from August 1 until September 21 for we here at the Leader to learn about "Let Freedom Ring."

"Let Freedom Ring" is a non-profit corporation established to combat communism, socialism, fascism via a telephone tape recording. The caller dials a number (just like time and weather) and gets two minutes of dynamite. He is automatically cut off at the end of the broadcast.

Scripts are written in Florida by a staff sparked by Dr. W.C. Douglass of Sarasota.

Dr. Douglass moved to that town early in 1962 from the

Naval Air Station in Sanford, Florida. He has a long record of dedication to the medical profession and America. His hobbies are politics and government affairs, hunting, music and golf. He has a wife, Theo, and two children.

Dr. Wm. C. Douglass

The series of "Let Freedom Ring" programs also started early in 1962 because a method of breaking through the communications barrier was deemed necessary to the health and welfare of every living American.

The programs are voluntarily sponsored by individual citizens interested in alerting the public to increasing dangers of a centralized government whose liberalism encompasses aspects of communism, socialism, fascism.

Your participation is voluntary. You must dial 637-7942 to . . . "Let Freedom Ring."

From Readers Who Write

Dear Editor:

Objective accuracy in reporting news used to be standard for all newspapers when writers were on friendly terms with truth--and freedom too. But such is not the case today.

Had objectivity in news continued to be the vogue within the United States alone, truth could have saved freedom for the world. But truth and freedom are almost strangers in our day.

"America appears to be in her last agony," an acquaintance said to me last night. "We've become so comfortable --glutted and fat."

He said no more . . . and my mind went searching throughout the night, looking among the things I'd learned when I was yet a boy in school--history, government, the purpose of life.

History told me that two hundred years was the average life expectancy of government: also I realized that no nation in history had ever recovered its dissipated energy once it had yielded to the degree of our present-day socialist rule. Always, government of the people, for the people, by the people, became sick and weak when citizens glutted themselves on comfort and luxury and hand-outs. Strength comes from discipline, denial, struggle . . . not from opulence, luxury, laziness.

But must history repeat itself--always? Need defeat be

our destiny? Why do people yield to government direction of their lives? Are men helpless, spineless, without purpose--except to eat and drink and glut themselves? Why are things more important than love, dignity, respect, kindness? Why do riots fill our streets when law and order pay tremendous dividends in peace and quiet and harmony?

I've seen dying people return to health. I've seen weakness turn to strength. I've seen depleted soil grow rich again. I've seen despair fertilize the heart of man and bring new hope and purpose to the derelict. I've seen broken hearts mend with love of truth a catalyst for the job. All this can live again . . . with principled newspapers a catalyst for the job.

But a newspaper that will compromise its purpose with the hope of bastard gain, one that will yield to sentimentality and greed and love of power at any price, is a newspaper not worthy the name since it will have failed the purpose of its being.

Newspapers with the courage to print truth--regardless of the consequences--can build our nation strong again--a nation like the one our fathers lived and died to save.

"SHORELINE LEADER, you have a job to do!"

God love you!

'Is This Bad?'

To The Sentinel:

Someone said to me the other day that I am bad . . . and I wonder if he's right. If I am bad, then who is good — and what's the telling mark?

If I love God and His word, is that bad?

If I accept the Babe of Bethlehem, His Son, is that bad?

If I accept the virginity of Mary, the divinity of Christ, the program of Salvation, am I bad?

If I accept and observe the Ten Commandments given me by Moses, am I bad?

If I'm for law and order, am I bad?

If I love the policemen who risk their lives for me, am I bad?

If I love my country, its Constitution, the Bill of Rights that keep me free, is that bad?

If I love all men without exception, is that bad?

If I love my country's flag, is that bad?

If I defend my home, my country, is that bad?

If I give aid to sick and hungry and poor — which is to give of myself in love — am I bad?

If I stand for something — and voice my stand — am I bad?

All these things may be bad — and I must confess to being guilty of them all — yet must I stand for them . . . for they are the heart and soul of me.

. . . And besides all these things, I'm a Bircher, too!

God love you and "Merry Christmas"!

MILWAUKEE'S OTHER VOICE

November 1967

Has Communism Infiltrated The Roman Catholic Church?

by C. F. THOMALLO

"The Catholic Church, which has its headquarters in Rome, is a reactionary organization which stirs up counter-revolutionary activities with the People's democracies. So that the People's Democracies may continue to advance via Socialism and Communism, it is necessary, first of all, to do away with the influence of the Catholic Church. . . ."

These words are taken from the "LI WEI HAN" document found in the Appendix of the publication "COMMUNIST EXPLOITATION OF RELIGION," printed for the use of the Committee on the Judiciary of the United States Senate, dated May 5, 1966, and commonly spoken of as the secret Red plan to take over the Catholic Church.

Is this plan being used in our own United States of America? Last week I heard a man speak in a Milwaukee church hall. With a note of concern in his voice, he said:

"I don't want Communist and pro-Communist material being taught my children as Christian doctrine in a Catholic school."

I questioned this speaker. . . . and when I returned home, I perused my boy's catechism:

"OUR LIFE WITH GOD SERIES -- VATICAN II EDITION, GRADE 6."

Page 1 has a statement of Pope Paul VI made to the United Nations. The statement rings a note of sociology and economics, but surely not one of Catholic doctrine. . . . but it leaves the impression in my boy's mind that the United Nations must have something good to do with Christian teaching -- which it hasn't. On the contrary, the United Nations is, and has always been anti-God, anti-Christian, and anti-American. . . . and always pro-Communist. One has only to read the charter of the United Nations to learn that God has no place in it.

Then why does the United Nations have a place in the so-called "Catholic" catechism of my boy?

Pages 40, 92, and 108 contain statements by Martin Luther King Jr. Who is this man King? What qualifies him to teach my son Christian Catholicism? What is his background? Former F.B.I. Counterspy Karl Prussion has this to say under oath:

" . . . I hereby also state that Martin Luther King has either been a member of, or wittingly has accepted support from, over 60 Communist fronts, individuals, and/or organizations, which give aid to or espouse Communist causes."

Why is King used in my boy's catechism? What's

wrong with quoting from the great saints of the Catholic Church -- the Apostles chosen by Jesus Himself?

Then there's Pete Seeger, identified as a Communist by our own government investigative committees: He has a place -- with Lee Hay -- on page 29 of my son's catechism.

Has the Catholic Church run out of Christian songs that tell of Jesus who gave Himself on the cross that we might live eternally?

The Red plan of LI WEI HAN tells: " . . . We shall progressively replace the religious element by the Marxist element, gradually change the false consciousness into a true consciousness, so that the Catholics will eventually destroy of their own accord and on their own account, the divine images which they themselves had created. . . ."

Teilhard de Chardin, a French priest, also has a place in the catechism. Yet the Holy Office of the Vatican states very definitely on Sept. 6, 1957: "The works of Father Teilhard de Chardin, S.J. must be withdrawn from the libraries, seminaries, and religious institutions. They must not be sold in Catholic bookshops; they must not be translated in other languages."

What's happened to the Catholic Church and her catechisms? Who handles the "truth" for the clergy and hierarchy? Will our pastors help the parents preserve the faith of their children -- from Communist source material. . . . or must the parents do it alone as suggested by some of the "more orthodox" clergy and hierarchy of our time?

In the closing paragraph of HAN's Red plan, I read: "Once the key posts of the clergy are in our hand and submitted to the People's Government, one will proceed to progressively eliminating from the liturgy those elements which are incompatible with the People's Government. The first changes will affect the sacrament and the prayers. . . . We know full well that when the practice of religion becomes no more than an individual responsibility, it is slowly forgotten. New generations will follow the old, and religion will be no more than an episode of the past, worthy of being dealt with in the historical (books) of the World Communist Movement."

. . . and as I read on -- and think of the man I hear speak last week -- I must wonder and ask:

"How long have we slept in the 'smugness' of our faith? How does one awaken the parents of children being nursed on divinely feedings of socio-economics? God love you!
